Para Pole ....................................................................................... 146
Introduction

The IPSF scoring system consists of four parts: Technical Bonus, Technical Deductions, Artistic and Choreography Presentation, and Compulsories; athletes will be judged in all four sections. The final score is a combination of the compulsory score + the technical bonus score + the technical deduction score + the artistic and choreography presentation score. In the case of a draw, the athlete with the highest score in technical deductions will be the winner. It is important that an athlete incorporates all sections into their routine in order to be awarded the highest number of points. The scoring system not only encourages and promotes a well-balanced routine, and develops and fosters well-trained and well-rounded athletes. The minimum overall score an athlete can be awarded is zero. All athletes must use one spinning and one static pole (see rules and regulations on configuration). For definitions of various terms, please see the glossary.

Divisions
- Amateur
- Professional
- Elite

Categories
- Senior Women
- Senior Men
- Master 40+ Women
- Master 40+ Men
- Master 50+ Women
- Master 50+ Men
- Junior Female
- Junior Male
- Novice Female
- Novice Male
- Pre Novice
- Novice Doubles
- Junior Doubles
- Youth Doubles
- Senior Doubles (Men/Men)
- Senior Doubles (Women/Men)
- Senior Doubles (Women/women)
- Para Pole*

*Please see Addendum 3 for all rules and requirements that are applicable to Para Pole athletes over and above the rules in this document.

Listed below is a short summary of what judges will be looking for. A detailed layout of all four sections is in this document to enable athletes to put together a successful routine.

Technical Bonus
- Singular points are awarded each time a bonus element/movement is executed.
- Overall points are awarded once, for the level of difficulty displayed throughout the routine.

Technical Deduction
- Singular points are deducted for every infringement that is noted throughout the routine.
- Overall points are deducted once for infringements throughout the routine.

Artistic and Choreography
- Points are awarded for artistry and choreography.
- Points are deducted every time an infringement is noted.

Compulsory
- Nine (Amateurs & Novice) or eleven (all other categories) compulsory elements are required for the athlete’s division and category.
- Compulsory bonuses, singles and doubles.

Head Judge Penalties
- Penalties are given for any infringements and breaches of rules and regulations.
- Penalties can be given prior to, during the routine and/or after the athlete has competed.

Please see Rules and Regulations for restrictions on music, hair, makeup, costume and grip aids.
Note: Athletes will be penalised for not adhering to the IPSF rules, regulations and the Ethical Code of Conduct. These penalties may be given before, during or after an athlete’s performance, and may even be deducted after the completion of the competition if deemed necessary, which may affect the final ranking.

Technical Bonus
A maximum of 25.0 points can be awarded in the technical bonus. This section judges the level of difficulty, combinations and transitions in and out of pole tricks, as well as the doubles synchronised/interlocking/balance and pair pole tricks. The judges will look for tricks performed with ease and grace. All athletes must complete a Technical Bonus Form, noting the bonus elements in the order they will be performed; athletes must submit a form regardless of whether pole tricks will be included in their routine or not. An of the example form can be found at the end of the Code of Points. This section is broken down into the following areas:

SINGLES - SINGULAR BONUS POINTS (AWARDED PER TIME):
The cumulative total of all singular bonus points indicated on the Technical Bonus Form must not be more than 15.0.

Acrobatic catches: AC (Max 1.0 pt)
Acrobatic catches are defined as a release of all contact from the pole, so there is no contact by any part of the body for a brief moment and re-gripping ("catching") the pole. An athlete may either move up or down the pole and/or change directions/positions when performing an acrobatic catch. +0.5

Combining spins with other spins on spinning pole: SP/SP (Max 2.0 pts)
Refer to all spins combined with a spin on a spinning pole (see definition of spins). Each spin position in this combination must rotate a full 720° before changing into the next spin position (which must include a change in body position), and the transition must be direct. The spin is counted from when the position is fixed. +0.5
Three spins can be combined for this technical bonus. When combining three spins for a point value of 1.0, each spin must be in a fixed position and rotate 720°; the code to use is SP/SP/SP. +1.0

Combining spins with other spins on static pole: SP/ST (Max 2.0 pts)
Refer to all spins combined with a spin on a static pole (see definition of spins). Each spin must rotate for a minimum of 360° (and must include a change in body position), and the transition must be direct. +0.5
Three spins can be combined for this technical bonus. When combining three spins for a point value of 1.0, each spin must be in a fixed position and rotate 360°; the code to use is SP/SP/ST. +1.0

Combining spins with other elements on static pole: SP/E/ST (Max 1.5 pts)
Refer to all other elements combined with a spin on a static pole (see definition of spins). The element must be briefly held in a fixed position. +0.5
For this technical bonus, two spins can be combined, ending with another element briefly held in a fixed position, on a static pole. Each spin must be held in a fixed position and rotate 360°; the code to use is SP/SP/E/ST. +1.0

Drops: D (Max 1.0 pt)
A rapid, controlled descent on the pole, which must be a minimum of a 1 (one) metre drop. There is to be no hand contact with the pole during the drop. +0.2

Dynamic combinations on spinning or static pole: DC (Max 3.0 pts)
Dynamic combinations refer to a combination of two separate dynamic movements (see definition of dynamic movement) where the body is in a powerful control of momentum. The athlete must demonstrate a high level of control of centripetal force where at least one part of the body releases from the pole. Dynamic movements can include regrips, drops, acrobatic catches, jump-outs, etc. They should be executed in quick succession with no pause between the two dynamic movements to be awarded this bonus. A repetition of a dynamic combination will be awarded a maximum of two times e.g. if an athlete executes a half fonji six times (from shoulder mount to brass monkey/flag grip counts as one movement), only the first four half-fonjis (so 2 full fonjis) will be awarded. Also, only 1 regrip can be included in a dynamic combination. +0.5

Jump-out / Jump-on: JO (Max 1.2 pts)
Jump-out refers to a jump executed from a starting position on the pole, ending in a position on the floor away from the pole. A jump-on refers to a jump executed from a starting position on the floor away from the pole ending in a position on the pole. There must be no contact with the pole in between the starting and ending positions. +0.2
Flip-out / Flip-on: FO (Max 1.0 pt)
A flip-out refers to a flip performed from a starting position on the pole ending in a position on the floor. A flip-on refers to a flip executed from a starting position on the floor and ending in a position on the pole. Both flips must be executed forwards, backwards or sideways. Twists are prohibited (see penalties). +1.0

Contact Flip (starting and ending on same pole): CF (Max 1.0 pts)
A pole flip with contact refers to a flip that is performed from a starting position on the pole, flipping backwards, forwards or sideways ending in a position on the same pole. The flip must fully rotate, with head over heels, in a dynamic manner while maintaining contact with the pole. Pole flips with contact with the pole must be executed forwards, backwards or sideways. Twists are prohibited (see penalties). +0.5

Pole flip (starting and ending on same pole): F (Max 1.5 pts)
A pole flip refers to a flip that is performed from a starting position on the pole, flipping backwards, forwards or sideways ending in a position on the same pole. A flip must fully rotate with head over heels and without contact with either the pole or the floor. Pole flips must be executed forwards, backwards or sideways. Twists are prohibited (see penalties). +1.5

Re-grips: RG (Max 1.0 pts)
Re-grips are defined as a release of contact from the pole of either one hand or one arm grip for a brief moment and intentionally re-gripping the pole in a new hand / arm grip position, e.g. elbow grip to hand grip. For a re-grip to be recognised, the athlete must not be able to hold their body position once they release their grip. There must be no body contact with the pole other than the grip positions. +0.2

DOUBLES - SINGULAR BONUS POINTS (AWARDED PER TIME):
Note: All explanations in singles above apply to doubles. The cumulative total of all singular bonus points indicated on the Technical Bonus Form must not be more than 10.0.

Acrobatic catches in synchronicity: AC/SYN (Max 1.0 pt)
Both partners must perform synchronised acrobatic catches. +0.5

Flip-out / Flip on: FO (Max 1.0 pt)
Only one of the partners must execute the flip-out / flip-on to receive the bonus. +1.0

Flip-out / Flip on in synchronicity: FO/SYN (Max 2.0 pt)
Both partners must perform a synchronised flip-out / flip-on to receive this bonus. +2.0

Contact Flip (starting and ending on same pole) in synchronicity: CF/SYN (Max 1.0 pts)
Both partners must perform synchronised contact flips to achieve this bonus. +0.5

Combining spins with other spins in synchronicity: SP/SP/SYN (Max 1.0 pt)
Both partners must perform two spins in succession and in synchronicity to receive the bonus. These must be the same spins or mirror image spins. These spins may be performed on either one or two poles. A 360° rotation must be completed if both partners are on the static pole, and 720° rotation if both partners are on the spinning pole (either of these must include a change in body position). In the event that two separate poles are used, a full rotation of 360° must be completed. (see definition of spins). +0.5
Three spins can be combined for this technical bonus. When combining three spins for a point value of 1.0, each spin must be in a fixed position; the code to use is SP/SP/SP/SYN. +1.0

Combining spins with other elements in synchronicity: SP/E/SYN (Max 1.0 pt)
Both partners are to perform the spins to receive the bonus. These spins may be performed on either one pole or two poles. A 360° rotation must be completed if both partners are on the static pole, and 720° rotation if both partners are on the spinning pole. In the event that two separate poles are used, a full rotation of 360° must be completed. The element must be briefly held in a fixed position. (see definition of spins) +0.5

Drops in synchronicity: D/SYN (Max 1.0 pt)
These must be performed fully synchronised. This must be the same drop or mirror image drops. Both partners must start and end at the same time. +0.2

Jump-out / Jump-on in synchronicity: JO/SYN (Max 1.2 pts)
These must be performed fully synchronised. Both partners must start and end at the same time. +0.2
Partner catch / throw from pole to partner or partner to pole: PCT (Max 0.8 pts)
Partner catch refers to one partner starting in a position on the pole and jumping into the arms of the second partner who is on the floor. A partner throw refers to both partners starting on a position on the floor and one partner throwing the other into a position on the pole. (See definition of throw) +0.4

Re-grips in synchronicity: RG/SYN (Max 1.0 pt)
These must be performed fully synchronised. +0.2

Synchronised dynamic combinations on spinning or static pole: DC/SYN (Max 2.0 pt)
These must be performed fully synchronised. +0.5

**SINGLES - OVERALL BONUS POINTS (AWARDED ONE TIME):**

Level of difficulty (LOD) refers to the elements and combinations of elements. (See definition of LOD).
Please note: Athletes will be awarded points based on the average LOD of the elements in the routine.
0 = simple 0.5 = moderate 1 = difficult 1.5 = very difficult 2 = extremely difficult.

Cliffs (Max +2.0)
Cliffs refer to the way an athlete moves up and down a pole using the hands and legs or hands only. Climbs may be performed upright, inverted, alongside of the pole. A minimum of 2 repeated movements are required to be recognised as a climb.

<table>
<thead>
<tr>
<th>Climb Example</th>
<th>Level of Difficulty</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic climb</td>
<td>Simple</td>
</tr>
<tr>
<td>Side climb</td>
<td>Simple - Moderate</td>
</tr>
<tr>
<td>Caterpillar climb</td>
<td>Moderate - Difficult</td>
</tr>
<tr>
<td>Outside leg hang climb</td>
<td></td>
</tr>
<tr>
<td>Seated climb</td>
<td>Moderate - Difficult</td>
</tr>
<tr>
<td>Walking climb</td>
<td>Very Difficult – Extremely Difficult</td>
</tr>
<tr>
<td>Hands only climb</td>
<td></td>
</tr>
<tr>
<td>Hop-up climb</td>
<td></td>
</tr>
</tbody>
</table>

Flexibility movements (Max +2.0)
Flexibility refers to the flexibility of the legs, back, hips and shoulders. In order to display the highest LOD to the judges, the athlete should perform movements, combinations, and transitions with full extension and mobility.

Pole transitions (Max +2.0)
Transitions refer to the transitions in and out of elements, on and off the pole, from the floor to the pole and from the pole to the floor. In order to display the highest level of difficulty (LOD), the athlete must display flowing movement and good body placement. The athlete must perform transitions with precision and ease.

Spins (Max +2.0)
The position of the spin must be held for the defined amount of rotation indicated in the criteria for each spin. Spins on a static pole must be in a fixed position for a rotation of 360°, and spins on a spinning pole must be in a fixed position for a rotation of 720°. The transition in and out of the spin will not count towards the required minimum rotation.

Strength elements (Max +2.0)
Strength refers to strength of the arms, core, and legs. In order to display the highest LOD to the judges, the athlete should perform both upper-body and core strength elements and combinations. Holding and controlling a strength element such as a flag for two (2) seconds or more will display a higher LOD.
**DOUBLES - OVERALL BONUS POINTS (AWARDED ONE TIME):**

Note: All explanations in singles above apply to doubles. The LOD of the two partners will be averaged for a final score.

**Climbs (Max +2.0)**
The climbs of both partners will be taken into account and averaged.

**Flexibility elements (Max +2.0)**
The flexibility of both partners will be taken into account and averaged.

**Balance elements (Max +2.0)**
See glossary for definition.

**Flying partner elements (Max +2.0)**
See glossary for definition.

**Pole Transitions (Max +2.0)**
The transitions of both partners will be taken into account and averaged.

**Strength elements (Max +2.0)**
The strength of both partners will be taken into account and averaged.

**Synchronised parallel / interlocking and balance elements (Max +2.0)**
See glossary for definition.

**ADDITIONAL BONUS POINTS (DOUBLES ONLY):**

Doubles will be awarded bonus points for:
- Both partners show they can catch and fly equally in the routine. This bonus is determined based on all movements that involve athletes catching and flying. **+1.0**

**Deductions:**

The athlete may receive a deduction for the form being filled in incorrectly. This is a once-off deduction. This includes but is not limited to:
- Indicating more than the allotted technical bonuses.
- Not signing the form
- The form being signed by anyone other than an IPSF recognised coach (or parent/guardian in the case of Junior, Novice or Pre-Novice athletes)
- Not filling in the top section of the form correctly. **-1.0**
Technical Deductions
A maximum of 25.0 points can be deducted in technical deductions. This section is to deduct points for poor execution on all elements (including compulsory). Judges are also asked to deduct points for loss of balance, falls, and failing to perform a required element. The number of points deducted is determined by the level of the infringement. Movements are broken down into the following sections:

SINGLES/DOUBLES - SINGULAR DEDUCTIONS (DEDUCTED PER TIME):

Fall
A definition of a fall is a sudden rapid uncontrolled drop onto the floor. This can be from any position on or off the pole. -3.0

Lack of synchronicity of element (Doubles)
Lack of synchronicity of an element refers to the partners executing an element that is uncoordinated and during which they are not in time with each other. -0.5

Poor execution and incorrect lines
Execution of pole elements must have the following:
- Knee and toe alignment – The knee and toe should be aligned. There should be a straight line from the kneecap to the big toe. The foot and toe should be pointed. The toes should not be clenched or showing tension. No unnecessary grabbing or gripping the pole with toes. -0.2
- Clean lines – The legs and arms should be correctly positioned and at full extension, feet and toes should be pointed. Fingers and toes should not show tension and feet should not be flexed unless performing an aerial walk or if it is a choreography choice. -0.2
- Extension – Legs, arms, back, neck, wrist and torso line should be fully lengthened. The shoulders and/or back should not be rounded and the head should be high showing no strain. -0.2
- Posture – Correct body alignment should be maintained on and off the pole. All body movements must be controlled. -0.2

Poor presentation of the element
This refers to elements executed with poor positioning or a poor angle to the judges, so that the element cannot be seen fully. This also refers to elements presented showing an unfavourable part of the body. -0.5

Poor transitions in and out of elements and on and off the pole
A poor transition is when an athlete fails to execute the entry and exits of elements smoothly, e.g. an abrupt uncontrolled entry/exit not performed with ease and grace. Transitions should appear effortless. -0.5

Slip or loss of balance
A definition of a slip or loss of balance is when an athlete performs a movement and they temporarily and unintentionally lose control of their equilibrium or positioning of their body or part of their body on or off the pole. This must be only for a brief moment and the athlete is able to correct their positioning almost instantly (see Fall). -1.0

Touching the rigging or truss system during the routine
It is strictly prohibited to touch or use the rigging or truss system during the routine. This includes touching the backdrop, any lighting that may be behind the stage area, or stepping out of bounds. Athletes must only have contact with the pole and floor. -1.0

SINGLES/DOUBLES - OVERALL DEDUCTIONS (DEDUCTED ONE TIME):

Failing to spin on a static pole / Failing to spin with momentum on the spinning pole (Singles only)
The athlete will be penalised for not spinning on the static pole a minimum of one time (see definition of spin) and not spinning with momentum on the spinning pole a minimum of one time during their routine. The athlete should be able to perform spins on both poles in both an inverted and upright position. (see definition of momentum). -2.0 / -2.0

Lack of synchronicity (Doubles)
The athletes will incur deduction points if they fail to perform their routine synchronised for a minimum of 70% of their routine. Either on one pole together, both on their own pole or on the floor. -2.0
Not using both poles equally
Singles and doubles athletes should be equally skilled on both static and spinning pole and this should be reflected in an equal use of both poles, not favouring one or the other pole. For doubles they must also work simultaneously on two separate poles in a synchronised manner. -2.0

Using less than the full height of the pole
All athletes will incur a deduction if they fail to use the full height of the pole a minimum of two (2) times during their routine on either pole. For doubles, only one of the partners needs to use the full height of the pole a minimum of two (2) times on either pole. Full height of the pole refers to using the pole from its base to no less than 10cm below the thread of the pole. Athletes intending to use the full height of the pole must ensure that they have contact with the pole or reaches with any part of the body up to this point (without contact with the pole).
Pre-Novice, Novice and Doubles Youth athletes only need to reach 50% of the height of the pole twice. -2.0

Artistic and Choreography Presentation
A maximum of 20.0 points can be awarded in artistic and choreography presentation. This section judges the athlete’s artistic presentation, interpretation and stage performance. Artistic presentation is the way in which the athlete expresses and presents him or herself to the judges. The judges will assess the athlete’s ability to convey emotion and expression through movement. The athlete should be confident, engaging, entertaining and show a high level of stage presence in each element of their performance on and off the pole. The costume, music, and performance should be reflective of each other. The athlete should create an original performance and display a unique style. The overall performance should flow seamlessly and effortlessly, ensuring that highs and lows (shades) are demonstrated. Choreography presentation is defined by all movements performed around the pole, stage area, or stage surface, but not in contact with the pole. The judges will assess the athlete’s ability to perform dance and acrobatic choreography that is performed with imagination, flow, and flair.

All work where the athlete is not in contact with the pole, must be limited to a maximum of 40 seconds for the total length of the routine. Note: see Head Judge’s penalties.

**SINGLES/DOUBLES - ARTISTIC BONUSES:**
The level of creativity refers to the overall routine on and off the pole.
Please note: Athletes will be awarded points based on the overall majority of the routine.

0 = poor  Almost non-existent, less than 20% of routine
0.5 = slight  A small amount, between 20% -40% of routine
1.0 = good  Fair amount, between 40% - 60% of routine
1.5 = very good  A large amount, between 60% - 80% of routine
2.0 = extreme  Over 80% of routine

Balance (Max +2.0)
Balance refers to the athlete’s ability to create a well-balanced routine that has equal amount of various elements. The athlete should create a balanced routine of different types of tricks e.g. flexibility, strength, spins, dynamic movements, acrobatic moves, stage work and transitions, integrating these into a choreography with stage performance and artistic content, using both spinning and static poles equally.

Confidence (Max +2.0)
Confidence refers to the athlete’s level of confidence in his or her routine. The athlete should not show nerves, but rather carry him/herself with confidence and be engaging, command the stage and the audience’s attention, making their whole routine look believable.

Flow (Max +2.0)
Flow refers to the athlete’s ability to create a seamless and effortless performance. The athlete should show a flow off the pole, between poles, from floor to pole, from pole to floor, and from floor to standing or from standing to floor. The sequences, tricks, transitions, choreography and/or gymnastics and acrobatic movements should flow in a seamless, smooth, natural, flawless, and graceful way. Movement in and out of elements should continue to the next element faultlessly. The routine should not look disjointed in any way. An athlete will be marked down if they perform elements and wait for applause.
Interpretation (Max +2.0)
Interpretation refers to the athlete’s ability to interpret the music, their facial expressions, their emotions, choreography and the creation of a character or story. The athlete should create choreography that shows the light, shade, feeling, and emotion of the music. They should connect with the music and show expression through their costume, body, and facial expressions. They need to show they can work their choreography to the beat and phrase of the music and melody.

Originality of the overall presentation (Max +2.0)
This refers to the originality and creativity of the overall performance of tricks and combinations, elements and original movements on and off the pole and the originality of choreography throughout the entire routine. The athlete should create original combinations of tricks and create new themes in choreography. Judges are not just looking for just one or two unique tricks and combinations but for overall originality in all components of the routine.

Originality of Elements (Max +2.0)
This refers to the originality and creativity of the overall performance of tricks, elements and movements on the pole throughout the entire routine. Athletes will be marked down if elements, tricks and movements become repetitive (for example, if the same climbs, JO or RG is used consistently instead of a variety of elements, tricks and movements).

Originality of transitions in and out of elements (Max +2.0)
This refers to the originality of all transitions, entrances, and exits of tricks and combinations in the entire routine. The athlete should create new and original movements for their transitions in and out of tricks and on and off the pole.

Stage presence and charisma (Max +2.0)
The athlete should capture the attention of the spectators. He or she should be in total control of their performance and carry themselves with an impressive style or manner, which is both engaging and charismatic.

SINGLES/DOUBLES - CHOREOGRAPHY BONUSES:

Originality of Choreography and Composition of whole routine (Max +2.0)
The level of originality of choreography and composition of the whole routine refers to the level of creativity of movements on and off the pole. Choreography is the art of composing dance, planning and arranging the movements, steps and patterns. The judges are looking for originality in the composition of the choreography, i.e. how it was put together.

Originality of Floor work (Max +2.0)
The level of originality of the floor work refers to a choreographed combination of dance steps and movements executed on the floor with no contact with the pole. This includes but is not limited to complex dance choreography, musicality, creativity and fluidity. The athlete should create movements that work with the beat of the music, which are reflective of their routine and are engaging and entertaining.

SINGLES/DOUBLES - SINGULAR DEDUCTIONS (DEDUCTED PER TIME):

Causing distraction by uttering vocals
The definition of vocals are talking, cueing, grunting, whooping, cheering, and mouthing words as it causes a distraction. -1.0

Costume malfunction or distraction
The definition of a costume malfunction is when a part of the costume accidentally falls down, falls off, becomes revealing, or distracting to the athlete’s performance (this does not refer to decorations coming loose during the performance for example diamantes, beads, sequins or feathers falling off the costumes). This should not be confused with the wilful removal of clothing, which is a direct violation of the IPSF rule of non-removal of clothing and can result in instant disqualification from the competition. -1.0

Drying hands on costume, body, pole or floor and/or adjusting hair or costume
Drying or wiping hands on costume, body, pole or floor and/or wiping hair away from face or neck, pulling at or fixing costume. -1.0

No logical beginning or end to the routine and/or the routine starting before or ending after the music
It is important that the athlete edits their music so that it corresponds with both the start and finish of the choreography. There should be a logical beginning and end to the routine that fits to the music. Athletes must
begin and end their performance in a position on the stage, visible to the judges. They should start their routine when the music starts and stop when the music ends. -1.0

SINGLES/DOUBLES - OVERALL DEDUCTIONS (DEDUCTED ONE TIME)

Putting no effort or thought into the costume
The athlete must compete in a costume suitable for competition and not for training. This requires taking the style, cut and decoration into consideration when choosing a costume for competition. -1.0

Compulsory
All athletes must perform the allocated number of compulsory elements. Please note that all compulsory elements have to be performed aerially unless specified otherwise. A technical value of between +0.1 and +1.0 will be awarded if the minimum requirements have been met, e.g. position held for two seconds, correct split/body angle. It is the responsibility of the athlete to execute the compulsory element clearly to the judges. If a compulsory element is on the border, it will not be awarded. Elements with a value of +0.1 are easier than that those with a value of +1.0. Extra points will be given if the athlete performs any of the compulsory bonuses on the compulsory elements. The technical value of compulsory elements permitted is dependent on both age category and competitive division. The judges always judge according to the element code in the compulsory form (and not the name of the element) and only the first attempt of the element will be judged. A compulsory element will not count after the first attempt even if the element is executed correctly afterwards. Compulsory elements must not be repeated (i.e. individual elements can be used only once). Repetitions of the same compulsory element will not be awarded, but will result in a deduction for incorrect form, and will count as a missing element. Compulsory elements must also be held in a fixed position, unless specified otherwise. See category breakdown below.

Elite
Senior, Junior and Master
Athletes must select 11 elements:
  o four (4) flexibility elements
  o four (4) strength elements
  o one (1) spin for a spinning pole
  o one (1) spin for a static pole
  o one (1) aerial dead lift (ADL)

Novice*
Athletes must select 9 elements:
  o three (3) flexibility elements
  o three (3) strength elements
  o one (1) spin for a spinning pole
  o one (1) spin for a static pole
  o one (1) dead lift (DL)

Doubles – Senior and Junior
Athletes must select 11 elements:
  o three (3) synchronised partner elements, broken down as follows:
    - one (1) synchronised parallel element
    - one (1) synchronised interlocking element
    - one (1) synchronised balance-based element
  o two (2) balance partner elements, broken down as follows:
    - one (1) balance based partner element
    - one (1) balance strength partner element
  o three (3) flying partner elements, athletes must include:
    - one (1) one-partner contact flying element
    - one (1) both partner contact flying element
    - one (1) athlete’s choice of flying element
  o one (1) partner supported element
  o one (1) pole-based floor element
  o one (1) synchronised aerial dead lift (ADL)
Doubles – Youth and Novice*
Athletes must select 9 elements:
- three (3) synchronised partner elements to include:
  - one (1) synchronised parallel element
  - one (1) synchronised interlocking element
  - one (1) synchronised balance-based element
- one (1) balance partner element
- two (2) flying partner elements, athletes must choose:
  - one (1) one-partner contact flying element
  - one (1) both partner contact flying element
- one (1) partner supported element
- one (1) pole-based floor element
- one (1) synchronised dead lift (DL)

*Please Note: no Pre-Novice Category.

Professional
Senior and Master
Athletes must select 11 elements:
- four (4) flexibility elements
- four (4) strength elements
- one (1) spin for a spinning pole
- one (1) spin for a static pole
- one (1) aerial dead lift (ADL)

Doubles
Athletes must select 11 elements:
- three (3) synchronised partner elements, broken down as follows:
  - one (1) synchronised parallel element
  - one (1) synchronised interlocking element
  - one (1) synchronised balance-based element
- two (2) balance partner elements, broken down as follows:
  - one (1) balance based partner element
  - one (1) balance strength partner element
- three (3) flying partner elements, athletes must include:
  - one (1) one-partner contact flying element
  - one (1) both partner contact flying element
  - one (1) athlete’s choice of flying element
- one (1) partner supported element
- one (1) pole-based floor element
- one (1) synchronised aerial dead lift (ADL)

*Please Note: no Pre-Novice, Novice, Junior or Youth category.

Amateur
Senior, Junior, Pre-Novice, Novice and Master
Athletes must select 9 elements:
- three (3) flexibility elements
- three (3) strength elements
- one (1) spin for a spinning pole
- one (1) spin for a static pole
- one (1) dead lift (DL)
Doubles
Athletes must select 9 elements:
- three (3) synchronised partner elements to include:
  - one (1) synchronised parallel element
  - one (1) synchronised interlocking element
  - one (1) synchronised balance-based element
- one (1) balance partner element
- two (2) flying partner elements, athletes must choose:
  - one (1) one-partner contact flying element
  - one (1) both partner contact flying element
- one (1) partner supported element
- one (1) pole-based floor element
- one (1) synchronised dead lift (DL)

CATEGORY BREAKDOWN

Please note: athletes must not choose the same element twice, even if executed at different angles e.g. F7 (splits 160°)/F25 (splits 180°). The same applies to body tolerances e.g. FLR8 (20° tolerance) / FLR16 (no tolerance)

Senior, Master and Doubles (Senior):
 Elite athletes must choose compulsory elements with a technical value of between +0.5 and +1.0
 *Elite athletes must choose an aerial dead lift with a fourth or higher point value.
 Professional athletes must choose compulsory elements with a technical value of between +0.3 and +0.8
 Amateur and all Para Pole athletes must choose compulsory elements with a technical value of between +0.1 and +0.5
 Please note: Master 50+ category in all divisions will be allotted a 20° tolerance on all body and split angles.

Novice, Junior and Doubles (Junior, Novice and Youth):
 Elite athletes must choose compulsory elements with a technical value of between +0.3 and +0.8.
 Amateur athletes must choose compulsory elements with a technical value of between +0.1 and +0.5.
 Please note: professional category does not apply to Novice or Junior athletes.

Pre-Novice:
 Amateur athletes must choose compulsory elements with a technical value of between +0.1 and +0.5.
 Please note: elite and professional category does not apply to Pre-Novice athletes.

COMPULSORY POINT REQUIREMENTS

Please note: Compulsory point requirements do not include compulsory bonus points.

Please note: Should compulsory point requirements not be adhered to, or should the maximum / minimum score be outside of the prescribed range, this will result in a -3 deduction being applied – please refer to the Compulsory Deductions.

Elite Division Compulsory Point Requirements
 Senior: must have a total value of from 7.7 to 11.0 points on their compulsory form
 Senior Doubles (Women/Women, Men/Men, Women/Men): must have a total value of from 7.7 to 11.0 points on their compulsory form
 Master: must have a total value of from 6.6 to 11.0 points on their compulsory form
 Junior: must have a total value of from 5.5 to 8.8 points on their compulsory form
 Doubles (Junior): must have a total value of from 5.5 to 8.8 points on their compulsory form
 Novice: must have a total value of from 4.4 to 7.2 points on their compulsory form
 Doubles (Novice, Youth): must have a total value of from 4.4 to 7.2 points on their compulsory form

Professional Division Compulsory Point Requirement
 Professional (all categories including doubles): athletes must have a total value of from 5.5 to 8.8 points on their compulsory form

Amateur Division Compulsory Point Requirements
 Amateur (all categories including doubles and Para Pole): athletes must have a total value of from 1.1 to 4.5 points on their compulsory form.
The athlete will NOT be awarded points if he/she fails to hold the position of a compulsory element for the required two (2) seconds, according to the minimum requirements in the description under ‘criteria’. -3.0

The athlete will NOT be awarded points if he/she fails to execute the compulsory element at the required split and/or body angle, according to the minimum requirements in the description under ‘criteria’. -3.0

The athlete will NOT be awarded points if he/she fails to hold a spin for the duration indicated in the criteria. -3.0 per element

The athlete will NOT be awarded points if he/she fails to execute the required split and/or body angle: -1.0 once off

The athlete will NOT be awarded points if he/she fails to hold the position of a compulsory element according to the minimum requirements in the description under ‘criteria’. -1.0

Failing to meet further minimum requirements: The athlete will NOT be awarded points if he/she fails to meet any further minimum requirements listed in the description under ‘criteria’. -1.0

Failing to accurately show individual elements: The athlete should clearly indicate each element as an individual element – e.g. if performing a Phoenix Spin into a Handspring Straddle, the athlete must clearly perform the Phoenix Spin, and then show clear differentiation between the end of the Phoenxic spin and the start of the Handspring Straddle. The athlete must demonstrate that these are 2 separate elements from the code, as opposed to just the continuation of the first element.

The following will result in a compulsory element not being recognised:

- **Failing to perform one of their chosen compulsory elements or if the element is not recognisable as the compulsory element. This is deducted per time.** -3.0
- **Failing to meet the minimum total point requirements. This is a once-off deduction.** -3.0
- **Exceeding the maximum total points allowed for the points requirements.** -3.0
- **If an element with a value outside of the permitted range is indicated, it will be regarded as a missing element.** -3.0 per element
- **Failing to perform the element that is indicated by the element code (as opposed to the element name) will be seen as a missing element.** -3.0 per element
- **Wrong element name versus element code or technical value will be seen as filling in the compulsory form incorrectly.** -1.0 once off
- **Filling in the compulsory form incorrectly prior to competition (see example forms at the end of the Code of Points – this includes filling in the top part of the form incorrectly, and not using the correct name of the element).** -1.0 once off
- **The compulsory form not being signed by the athlete, and/or being signed by anyone other than an IPSF recognised coach (or parent/guardian in the case of Junior, novice and Pre-Novice athletes) -1.0 once off**
- **Failing to execute the compulsory element in order of sequence as listed on the compulsory form.** -1.0 per time

*If two elements that are in immediate succession on the form are switched (e.g. the athlete performs element 1, then element 3, then element 2), the two elements that were reversed will receive a score of 0, and a penalty of -1.0 will be given for reversing the order of the two elements. The -1.0 penalty will be given per switch. If an element is included in the routine but not in the correct order, and the element is more than one place off from where it should be in the order of the program, it will be considered a missed element, and will receive a score of -3.0.

**Compulsory Bonus Points:**
Each compulsory bonus can only be awarded a maximum of two (2) times. Any bonus filled in over the allotted maximum will be disregarded. Compulsory bonuses will only be awarded if the compulsory elements meet minimum requirements. Please refer to page 105 for compulsory elements that are not allowed to combine for any compulsory bonuses.

Compulsory bonuses are as follows:

**Singles**

**CBS1: Combining compulsory elements on spinning pole (Max +2.0)**
Combining two (2) or more compulsory elements and making each separate element rotate a full 360°. The transition from the first to the second element must be direct. See glossary for definition of a spin. +1.0
*Note: compulsory bonuses do NOT apply to compulsory spins or dead lifts
**Note: when combining three (3) compulsory elements for this bonus each separate element must rotate a full 360°. See how to fill in the compulsory score form under “description of bonuses”.
***Note: Variations of the same element names cannot be combined for compulsory bonuses. e.g. dragon tail split to dragon tail fang or iron x to iron x passé.

**CBS2: Combining compulsory elements on static pole and making them spin (Max +4.0)**
Combining two (2) compulsory elements and making them spin a full 360° rotation. The transition from the first to the second element must be direct. The second element must still be in a spinning rotation and meet minimum requirement to be awarded this bonus. See glossary for definition of a spin. +2.0
*Note: compulsory bonuses do NOT apply to compulsory spins or dead lifts
**Note: when combining three (3) compulsory elements for this bonus the first and second element must rotate a full 360° and the second and third elements must rotate a full 360°. See how to fill in the compulsory score form under “description of bonuses”.

**CBS3: Performing a single compulsory element on a static pole and making it spin (Max +1.0)**
See glossary for definition of a spin. +0.5
*Note: compulsory bonuses do NOT apply to compulsory spins or dead lifts

**Doubles**

**CBD1: Combination of two compulsory elements without making contact with the floor, both partners must change position (Max 2.0 pts)**
The transition from the first element to the second element must be direct. Both partners must change their positions. See definition of changing position in glossary. +1.0
*Note: compulsory bonuses do NOT apply to dead lifts

**CBD2: Performing a single flying partner compulsory element with momentum on a spinning pole (Max 2.0 pts)**
This flying partner element must rotate a full 720° rotation to be awarded this bonus. +1.0
*Note: compulsory bonuses do NOT apply to dead lifts

**CBD3: Performing a synchronised compulsory element on one static pole and making it spin (Max 2.0 pts)**
Both partners are to perform this element in synchronicity and with a full 360° rotation. See definition on spins in glossary. +1.0
*Note: Compulsory bonuses do NOT apply to dead lifts
**Compulsory Minimum Requirement Definitions**

The inside arm or leg is closest to the pole. The outside arm or leg is furthest away from the pole.

**Body positions:**
- Inside leg/foot/arm/hand and outside leg/foot/arm/hand
- Front, behind, backwards and forwards

**Hand positions – thumbs up, thumbs down, cup grip**

<table>
<thead>
<tr>
<th>Thumb Position</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Thumbs Up</strong></td>
<td>In this position, the thumb goes around the pole on the opposite side to the other fingers, thumb on top. The direction of the thumbs is always the same as the position of the torso and head, e.g., if the torso/head is facing upwards, thumbs up position is required.</td>
</tr>
<tr>
<td><strong>Thumbs Down</strong></td>
<td>In this position, the thumb goes around the pole on the opposite side to the other fingers, thumb at the bottom. The direction of the thumbs is always the same as the position of the torso and head, e.g., if the torso/head is facing downwards, thumbs down position is required.</td>

</tbody>
</table>

**Compulsory Code Key**

- **F** = Flexibility element
- **S** = Strength element
- **ST** = Spin on a static pole
- **SP** = Spin on a spinning pole
- **DL/ADL** = Dead lift / Aerial dead lift
- **SYN** = Synchronised partner element
- **BLN** = Balance partner element
- **FLY** = Flying partner element
- **PSE** = Partner supported element
- **FLR** = Floor based partner element
Prohibited movements and penalties

- All types of lifts and balances with extended arms and where the lifting partner is in an upright standing position are prohibited. All lifts where the partner is lifted and held above shoulder level are prohibited.
- All lifts using the pole as an aid and fixing the lifting position are prohibited. These lifts are only allowed if used as a transition onto the pole without fixing a position.
- Throwing a partner into the air and catching him or her with no contact with the pole is prohibited.
- All work, where the athlete is not in contact with the pole, must be limited to a maximum of 40 seconds of the total length of the performance.
- Twisting saltos and two or more consecutive saltos are prohibited, both on and off the pole.
- No rotation movements including jumps, pivots and pirouettes with more than 720° on one point are allowed.
- For an additional list of prohibited movements, refer to Addendum 1.

Penalty: if the above rules are not adhered to, a penalty of -5 will be given by the Head Judge for each infringement, and no difficulty value will be awarded.
**Head Judge Penalties**

An athlete will receive penalties on the decision of the Head Judge during the competition for the following infringements:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Limitations</th>
<th>Penalty</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exceeding maximum time permitted without contact with the pole</td>

</tbody>
</table>

**Injury during a routine**

If in the opinion of the head judge, medical attention is required, the head judge must stop the programme if the athlete has not done so already. If the athlete is able to continue within one minute they must continue immediately from the point of interruption or, if that is not possible, allow a period of up to ten seconds before the continuation. If an athlete is unable to complete the programme, no scores will be awarded and the athlete will be considered to have withdrawn. The same applies to the situation when an athlete has been given the opportunity to continue the programme from the point of interruption and is once more unable to complete the programme. Only one interruption is permitted.

*No restarts of the whole programme are allowed, except for deficient music. Please refer to Rules & Regulations.*
**COMPULSORY SINGLES**

Please note that the drawings are to be used only as a guide.
It is important to follow the minimum requirements under criteria.

- Body position is: criteria of Cradle spin and Butterfly extension apply (refer to ST12 and S18) |
| ST21 | Double reverse grab body spiral 1 | | 0.7 | - Hold the position: a minimum of 720° rotation  
- Points of contact are: both hands  
- Arm position is: reverse spin starting with one hand on the pole, hand re-grips the pole and reverse spin is repeated without making contact with the floor  
- Grip is: split grip (second time only)  
- Leg position is: legs in fixed position of choice  
- Body position is: upright at an angle away from the pole |
| ST22 | Phoenix spin 1 | | 0.7 | - Hold the position: a minimum of 360° rotation, where the handspring should still spin  
- Points of contact are: both hands  
- Arm position is: reverse spin starting with one hand on the pole into a twisted grip handspring without making contact with the floor  
- Grip is: twisted grip  
- Leg position is: legs finish in a fixed position of choice  
- Body position is: body moves into inverted position after handspring |
| ST23 | Double reverse grab body spiral 2 | | 0.8 | - Hold the position: a minimum of 720° rotation  
- Points of contact are: both hands  
- Arm position is: reverse spin starting with one hand on the pole, hand re-grips the pole and reverse spin is repeated without making contact with the floor  
- Grip is: split grip (both times)  
- Leg position is: legs in fixed position of choice  
- Body position is: upright at an angle away from the pole |

- Leg position is: both legs are fully extended, parallel to the floor, hips and legs are closed  
- Body position is: entire body (head to feet) is straight and at 90° to the pole, with a tolerance of not more of 20° |
| SP42    | One Handed Parallel Split Spin |         | 1.0         | - Hold the position: a minimum of 720° rotation  
- Points of contact are: only one hand  
- Arm position is: inside arm is fully extended and in contact with the pole, outside arm is bent, holding the opposite leg above the head  
- Grip is: basic grip  
- Leg position is: both legs are fully extended in split position, parallel to the pole  
- Body position is: upright, away from the pole, parallel to the pole |
| SP43    | Pole based clock            |         | 1.0         | - Hold the position: a minimum of 720° rotation  
- Points of contact are: both hands  
- Arm position/grip is: split grip  
- Leg position is: starting in an upright position, legs and hips make a circular rotation (fan kick/flair) passing through an inverted position with the hips above the head, ending in pike position (jack knife) over the head for 2 times  
- Body position is: upright/inverted |
| SP44    | Sailor                      |         | 1.0         | - Hold the position: a minimum of 720° rotation  
- Points of contact are: triceps, both ankles, one shin and one calf  
- Arm position/grip is: inside arm is fully extended, and the triceps has contact with the pole; outside arm is in fixed position of choice with no contact with the pole.  
- Leg position is: fully extended and closed  
- Body position is: inverted and extended |

</table>
**DEADLIFTS**

**DEAD LIFT (DL)**
A dead lift is defined by the starting position of the body. The feet must touch the floor before going into the dead lift. The body should be extended away from the pole before moving into the dead lift.

The pole should NOT be used to assist the dead lift and the legs should not be used to create momentum or a swinging/kicking motion. The dead lift must end in a fully inverted position. A dead lift can be performed on either the static or spinning pole.

- **a - Lowest point value** is for a dead lift (from the floor) with bent legs
- **b - Second point value** is for a dead lift (from the floor) with both legs extended
- **c - Third point value** is for a dead lift (from the floor) with both legs extended and closed

**AERIAL DEAD LIFT (ADL)**
An aerial dead lift is defined by the starting position of the body. No parts of the body must be in contact with the floor. The body should be fixed and suspended away from the pole and the legs parallel to the pole before moving into the aerial dead lift. The pole should NOT be used to assist the dead lift and the legs should not be used to create momentum or a swing motion. A dead lift must end in a fully inverted position. A dead lift can be performed on either the static or spinning pole and can be performed from a static position or from a spin.

- **a - Fourth point value** is for an aerial dead lift with bent legs
- **b - Fifth point value** is for an aerial dead lift with both legs extended
- **c - Sixth point value** is for an aerial dead lift with both legs extended and closed

When indicating the specific dead lift on the compulsory form by indicating a Dead-lift (DL) versus Aerial Dead-lift (ADL), the number of the lift, and the letter representing which dead lift has been chosen (a,b or c), for example ADL3c, DL8a.

| BLN18   | Handstand position      |                              | 0.5         | - Hold the position for 2 seconds  
- An element with partners positioned in different directions  
- The lower partner is in a horizontal position facing upwards holding with the thighs only with a 40° tolerance on the body angle, the upper partner is in an inverted handstand position with the body leaning against the pole  
- No hand/arm contact with the pole |
| BLN19   | Hanging balance         |                              | 0.5         | - Hold the position for 2 seconds  
- A balance element with partners positioned in different directions  
- The upper partner is holding the lower partner at the shoulder and has contact with the pole only with hands and wrists.  
- The lower partner has contact with the pole only with feet.  
- The whole body of both partners must be fully extended.  
- Both partners must have contact with the pole |
| BLN20   | Pencil hug balance      |                              | 0.5         | - Hold the position for 2 seconds.  
- A balance element with partners positioned in different directions.  
- The upper partner is in an upright position with the back arched. Only legs have contact with the pole (no hip contact).  
- The lower partner performs a Pole Hug Pencil position. The criteria of Pole Hug Pencil apply (refer to S6).  
- The lower partner supports and holds the upper partner at knee level with elbows/arms.  
- Both partners must have contact with the pole. |

- The lower partner has contact with the floor with the hips and thighs and supporting the upper partner at the shoulder blades with the feet. |
| FLR14   | Split balance 2               | ![Image](image3.png)                         | 0.7         | - Hold the position for 2 seconds.  
- An element with partners positioned in different directions.  
- The lower partner performs a floor based fixed split position of choice.  
- The other partner is in inverted handstand position balancing on the lower partner's upper foot, and has contact with the pole with one elbow or forearm/hand only.  
- Only the lower partner can have contact with the floor with one foot and one hand (optional).  
- Both partners have contact with the pole.  
- Angle of split is: minimum 180° |
| FLR15   | Standing inverted balance 2   | ![Image](image4.png)                         | 0.7         | - Hold the position for 2 seconds  
- An interlocking strength element with one partner in contact with the pole and floor.  
- The balancing partner can be in an inverted fixed position of choice, without contact with the floor.  
- The standing partner must perform a vertical split element and be contact with the pole.  
- Angle of split is: a minimum of 180° |

</table>
| FLR16   | Straddle plank balance 2 |                               | 0.7         | - Hold the position for 2 seconds.  
- Partners perform the same strength element:  
- The lower partner performs a floor based balance element only one hand and side of torso in contact with the pole, and only one point of contact with the floor.  
- The upper partner must perform the same element balancing on the lower partner and only one hand and side of torso in contact with the pole, and only one point of contact with the lower partner.  
- Partners must be parallel to the floor and to each other, and facing the same direction. |
| FLR17   | Split balance 3        |                               | 0.8         | - Hold the position for 2 seconds  
- A handstand element based on balance and cannot be performed without one or the other partner  
- Supporting partner is in a handstand position, with legs in a 180° split. Only point of contact with the pole is one foot.  
- Supported partner is in a split position on top of the supporting partner. Only point of contact with the pole is one foot. |
| FLR18   | Standing horizontal balance |                               | 0.9         | - Hold the position for 2 seconds  
- An interlocking strength element with one partner in contact with the pole and floor  
- The balancing partner must be in a fixed position of choice where the entire body is parallel to the floor, without contact with the floor  
- The standing partner must perform a vertical split element and be contact with the pole  
- Angle of split is: a minimum of 180° |
| FLR19   | Strength hold balance 2 |                               | 0.9         | - Hold the position for 2 seconds  
- An element with partners positioned in different directions  
- The lower partner performs any strength element, where the body is parallel to the floor and only one hand is in contact with the floor.  
- The upper partner is in inverted handstand position balancing on the lower partner with hand/arm contact with the pole and no contact with the floor. |

Compulsory Score Form

Instructions on how to fill in the compulsory score form: a deduction of -1 is made for an incorrectly completed form. Please note: the form should be typed in Microsoft Word, using black print. Only the official IPSF compulsory form is allowed to be submitted. A deduction of -1 will be made for the use of the incorrect form.

Athlete(s):
Insert the full name of the athlete in the case of singles, or the names of both the athletes in the case of doubles.

Country/Region:
Insert the country or region of the athlete’s or athletes’ origin. For International competitions, the athlete must only indicate their country. For National and Open competitions, the athlete must also indicate their region / province / county.

Division:
Insert the division that the athlete(s) will be competing in from the following options: Amateur, Professional or Elite. Please refer to the Rules & Regulations for the full division breakdown.

Category:
Insert the category that the athlete(s) will be competing in from the following options: Pre-Novice, Novice Male, Novice Female, Junior Male, Junior Female, Novice Doubles, Junior Doubles, Youth Doubles, Senior Men, Senior Women, Master 40+ Men, Master 40+ Women, Master 50+ Men, Master 50+ Women, Doubles Women/Women, Doubles Men/Men, Doubles Men/Women.

Date:
Insert the date of submission of the form. If a new form is submitted, the new submission date must be inserted.

Federation:
Insert the IPSF-endorsed National Federation the athlete is representing. In the event that an IPSF-endorsed National Federation has yet to be established, leave this field blank.

Element No:
This refers to the compulsory elements the athlete(s) must perform in their routine.
Element No. 1 = first compulsory element performed in routine.
Element No. 2 = second compulsory element performed in routine, etc.

Element Code No:
It is important to list the element codes as indicated in the Code of Points, in the correct order of sequence as they will be executed in the routine. If an athlete chooses to combine two compulsory elements, they should write this in the same box. The element performed first in the combination, should be listed first. In such a case, it is important to leave the next line blank before filling in the next compulsory element, in order for the number of compulsory elements to correspond correctly to the element no. (See example score forms).
Doubles: Code No. SYN1 is to be written together with the Code No. of the chosen singles compulsory element e.g. SYN1/F45
Judges will always look for the element by the element code. This also applies if the wrong element name is written.

Element Name:
It is important to fill in the Element Name as it appears in the Code of Points. This must correspond exactly to the Code number in the Code if Points. If the element name does not correctly correspond to the element number written on the form, the element number indicated is the element that will be judged, and the athlete will receive a penalty for not completing the form correctly.
**Compulsory Bonus Code** (if applicable):
Athletes should complete this section should they choose to perform a compulsory bonus.

Example of entering three (3) compulsory elements as a bonus:

- **Element Code No:** F63 + F31 + F55
- **Description of Bonuses:** CBS1
- **Technical Value:** 0.8 + 0.5 + 0.7

**Element Name:** Dragon tail fang + Split grip leg through split + Oversplit on pole

**Technical Value (T.V.) on Bonuses:** +1.0 +1.0

Bonus elements must be written together, on the same line. An element line must be left blank when a bonus is included (see element nos. 10/11 on the singles compulsory form below). If three elements are combined for bonus, two lines must be left blank (see element nos. 6/7/8 on the singles compulsory form below).

**Technical Value:**
The athlete(s) must fill in the technical value of the compulsory element as specified in the Code of Points. It is important for the athlete to fill in the correct technical value corresponding to the element they have chosen. If an athlete chooses to combine two compulsory elements, they should write the two technical values in the same box. The element performed first in the combination should be listed first.

*Doubles: the Technical Value of Code number SYN1, is to be taken from the chosen singles compulsory element e.g. SYN1/F48 = Technical Value of +0.7*

**Technical Value (T.V.) on Bonuses:**
The athlete must fill in the technical value of compulsory bonuses specified in the Code of Points, should they choose to perform a bonus on a compulsory element or combination of compulsory elements. It is important for the athlete to fill in the correct technical value corresponding to the compulsory bonus chosen.

**Athlete(s) Signature:** The form must be signed or the athlete(s) name(s) must be typed in.

**Coach’s Signature:** Should athlete(s) have an IPSF-recognised coach, their signature may be added. In the case of a Pre-Novice, Novice or Junior athlete, a parent’s or guardian’s signature is required if the athlete does not have an IPSF-recognised coach.

Technical Bonus Form

Instructions on how to fill in the technical bonus score form: a deduction of -1 is made for an incorrectly completed form. Please note: the form should be typed in Microsoft Word, using black print. Only the official IPSF technical bonus form is allowed to be submitted. A deduction of -1 will be made for the use of the incorrect form.

Athlete(s):
Insert the full name of the athlete in the case of singles, or the names of both the athletes in the case of doubles.

Country/Region:
Insert the country or region of the athlete’s or athletes’ origin. For International competitions, the athlete must only indicate their country. For National and Open competitions, the athlete must also indicate their region / province / county.

Division:
Insert the division that the athlete(s) will be competing in from the following options: Amateur, Professional or Elite. Please refer to the Rules & Regulations for the full division breakdown.

Category:
Insert the category that the athlete(s) will be competing in from the following options: Pre-Novice, Novice Male, Novice Female, Junior Male, Junior Female, Novice Doubles, Junior Doubles, Youth Doubles, Senior Men, Senior Women, Master 40+ Men, Master 40+ Women, Master 50+ Men, Master 50+ Women, Doubles Women/Women, Doubles Men/Men, Doubles Men/Women.

Date:
Insert the date of submission of the form. If a new form is submitted, the new submission date must be inserted.

Federation:
Insert the IPSF-endorsed National Federation the athlete is representing. In the event that an IPSF-endorsed National Federation has yet to be established, leave this field blank.

Order:
This refers to the technical bonuses the athlete chooses to perform in their routine.
Order No. 1 = first technical bonus performed in routine.
Order No. 2 = second technical bonus performed in routine, etc.

Bonus Code:
The athlete(s) must fill in the Bonus Code that correlates with the bonuses they want to perform, as specified in the Code of Points. It is important to list the Bonuses in the correct order of sequence, as they will be executed in their routine. If an athlete chooses to combine two or more technical bonuses, they should write these in the same box. Combinations of 2 or 3 technical bonuses can be written on the same row; long sequences of technical bonuses can be written over several rows. The technical bonus performed first in the combination should be listed first. (See the example score forms).
* The bonuses and their codes are to be found in the technical bonus section under singular bonuses.

Technical Value:
The athlete(s) must fill in the technical value of the technical bonus as specified in the Code of Points. It is important for the athlete to fill in the correct technical value corresponding to the technical bonus they have chosen. If an athlete chooses to combine two or more technical bonuses, they should write the technical values in the same box. The technical bonus performed first in the combination, should be listed first.
* The bonuses and their technical values are to be found in the technical bonus section under singular bonuses.

Athlete(s) Signature: The form must be signed or the athlete(s) name(s) must be typed in.

Coach’s Signature: Should athlete(s) have an IPSF-recognised coach, their signature may be added. In the case of a Pre-Novice, Novice or Junior athlete, a parent’s or guardian’s signature is required if the athlete does not have an IPSF-recognised coach.

TOTAL | Max 25 |

Athletes’ signature: Name + Name

Coaches signature: IPSF Coach or Parent/Guardian (for athletes under 18 years of age) only
Glossary:

20° (degree) tolerance
The 20° tolerance is only applicable where stated in the minimum requirements. The elements will still be valid if the executed angle/degree of the body varies no more than maximum 20° to the required angle/degree. E.g. If an element with a requirement of a 90° body angle to the pole is executed at a 70° angle, this will still be valid provided all other minimum requirements have been met.
*Please note: Master 50+ are allotted a 20° tolerance on all angles and splits for compulsory strength and flexibility elements unless a tolerance has already been allotted to the element.

Aerial dead lift (ADL)
An aerial dead lift is defined by the starting position of the body. No parts of the body must be in contact with the floor. The body should be suspended away from the pole and the legs parallel to the pole before moving into the aerial dead lift. The pole should NOT be used to assist the dead lift and the legs should not be used to create momentum or a swing motion. A dead lift must end in a fully inverted position. These elements can be performed on either the static or spinning pole and can be performed from a static position or from a spin. For doubles this must be a synchronised aerial dead lift performed by both partners.

Aerial position
Aerial position refers to the position where the athlete has contact with the pole only and no contact with the floor. In case of a doubles element, the partners can have contact with each other and the pole as well, but no contact with the floor.

Balance based partner elements (Doubles BLN 1 - 15)
Balance based partner elements refer to elements that cannot be performed without both partners and where the partners are in different positions (Exception BLN1). Both partners must be on the same pole in contact with each other.

Balance strength partner elements (Doubles BLN 16 - 41)
Balance strength partner elements refer to elements that cannot be performed without both partners, where the partners are in different positions and one of the partners is in a strength position. Both partners must be on the same pole in contact with each other.

Changing positions (Doubles)
Changing positions refers to changing the whole position of the body on the pole e.g. from an upright to an inverted position, changing sides of the pole, changing directions facing the pole, changing directions vertically and horizontally.

Categories
These are the age categories as defined in the Rules & Regulations.

Correct angle in splits
The angle/degree of a split is measured by the lines formed by the inner thighs in alignment with the hips to the knees.

Dead lift (DL)
A dead lift is defined by the starting position of the body. The feet must touch the floor before going into the dead lift. The body should extend away from the pole before moving into the dead lift. The pole should NOT be used to assist the dead lift and the legs should not be used to create momentum or a swing motion. A dead lift must end in a fully inverted position. Dead lift can be performed either on the static or spinning pole. For doubles this must be a synchronised dead lift performed by both partners.

Description of body
Below, please find a diagram indicating the regions of the body referred to in the minimum requirements. Please not that this serves as a reference guide only, and is not intended to be 100% anatomically correct.
Division
These are the divisions under which athletes can compete at IPSF endorsed National Pole Sports Championships. These are dependent on skill level and experience.

Dynamic Movement
A dynamic movement (pole or floor-based) is a fast movement that has force and where the body is in a powerful control of momentum - the athlete can not stop half way. The athlete must demonstrate a high level of control of centripetal force where at least one part of the body releases from the pole. Once the athlete is able to stop, the movement is over, e.g. drops, acrobatic catches, jump-outs, cartwheels, back flips etc.

Fixed Position
A fixed position is when an element is held without movement, wobbling or slipping of any body parts (for example wrist rotations whilst in an element). The element must be fixed completely, with no movement of the body at all, to be judged.

Floor work
Floor work is defined as all movement performed on the floor with no contact with the pole. Floor work is therefore meant only to be used for transition from pole to pole, for presentation and expression of the music and for recovery from performances. Time on the floor may be used for dance elements and basic gymnastics elements only and should not be a gymnastics performance.

Flying partner elements (Doubles FLY 1 - 48)
This includes partner lifts when one partner is holding the other who is either touching or not touching the pole. In order to display the highest Level of Difficulty (LOD) to the judges, the athletes must perform lifts that consist of difficult strength or flexibility elements.

Full length of the body
The full length of the body encompasses the head, torso, legs and feet.
Horizontal position
The horizontal position is only applicable where stated in the minimum requirements. The elements will be valid if the executed angle/degree of the body varies no more than maximum 20° (degrees) to the parallel position.

Holding a position for two seconds
A compulsory element will be counted from the time the athlete is in the required position. The final position must be fixed for two seconds. The transition in and out of the compulsory element will not be counted towards the holding of a position. Please note: this is intended for fair judging, enabling athletes to show correct form, body execution and strength on compulsory elements but not to deter from flow of movement.

Interlocking position (Doubles)
Interlocking position refers to the position where the same limb (at least one arm or one leg) of the partners is hooked around the pole and each other. Partners must be in contact with the pole and with each other.

Inverted position
Inverted position refers to the position where the hips are higher than the shoulders, and the shoulders are higher than or level with the head.

Layback
The layback is when only the inner thighs grip the pole with the back towards the pole. The upper torso must be in a lower position than the legs and hips. There is to be no hand contact with the pole.

LOC
LOC refers to the Level of Creativity of a routine. An athlete shows creativity by producing or using original and innovative ideas to create their routine. The higher the level of creativity, the more points are awarded for this element.

(0 = Poor, 0.5 = Slight, 1 = Good, 1.5 = Very good and 2 = Extreme)
This refers to the extent or amount the particular criteria is found throughout an athlete’s routine.
- 0 = Poor, refers to an almost non-existing amount
- 0.5 = Slight, refers to a small amount, less than half of the routine
- 1.0 = Good, refers to a fair amount, approximately half of the routine
- 1.5 = Very good, refers to a good amount, more than half of the routine
- 2.0 = Refers to almost the entire routine

LOD
LOD refers to the Level of Difficulty of an element. The higher the level of difficulty, the more points are awarded for this element.

LOD under Overall Bonuses (Technical Bonus)
(0 = Simple, 0.5 = Moderate, 1.0 = Difficult, 1.5 = Very difficult and 2.0 = Extremely Difficult)
This refers to the overall level of a particular type of element throughout an athlete’s routine.
- 0 = Simple, refers to elements with a technical value of 0.1 - 0.2
- 0.5 = Moderate, refers to elements with a technical value of 0.3 - 0.4
- 1.0 = Difficult, refers to elements with a technical value of 0.5 - 0.6
- 1.5 = Very difficult, refers to elements with a technical value of 0.7 - 0.8
- 2.0 = Extremely difficult, refers to elements with a technical value of 0.9 - 1.0

Majority
This refers to the main percentage of a certain aspect in an athlete’s routine e.g. 70% or more.

Mirror Image
This refers to partners in doubles performing an identical move, as a reflection of each other in a mirror. This could also refer to partners performing elements that are different, but are mirror image elements (specifically referring to SYN1).

Momentum in a spin
Momentum refers to the speed acquired when performing a spin. Good momentum in a spin means the rotation is at a high velocity, which pulls the body away from the pole. Lack of momentum in a spin means the rotation is at a low velocity, leaving the body close to the pole. Momentum for doubles refers to there being a constant rotation without the spin slowing down for a minimum of 720° for it to be considered as momentum in a spin.
Parallel body position
Parallel body position refers to the imaginary line through the middle of the whole body. This line must be at a 90 angle to the pole and parallel to the floor.

Partner supported elements (Doubles PSE 1 - 13)
Partner supported elements refers to elements where one partner is fully supporting the other partner by carrying their weight. Both partners may have contact with the pole, however only one partner is using the pole for support.

Pole-based floor partner elements (Doubles FLR 1 - 19)
This includes partner elements on the floor where either one or both partners are in contact with the floor and each other. At least one partner must be in contact with the pole.

Poor presentation of the element
This refers to elements executed with poor positioning or a poor angle to the judges so the element cannot be seen fully. This also refers to elements presented showing an unfavourable part of the body.

Positioned in different directions (Doubles)
Partners must be on opposite sides of the pole facing in different directions

Spin
The final position of the spin on a static pole must be fixed for a full 360° rotation. The final position of the spin on spinning pole must be fixed for a full 720° rotation. The transition in and out of the compulsory spin will not count towards the required minimum rotation. Spins may be performed in clockwise or anti-clockwise directions. It is also important to note that for spin combinations in the technical bonus section, each spin must be completed correctly to be awarded a bonus.

Starting position from the floor
Starting position from the floor refers to the position where at least one foot or one hand is on the floor, and the athlete transitions into the element with a direct and continuous transition, without stopping. The athlete is to have no pole contact before the transition.

Synchronisation / synchronicity (Doubles)
Synchronisation / synchronicity refers to the synchronisation of the overall performance. This includes on and off the pole, around the pole and the stage area as well as how well the partners work together throughout the whole performance. Synchronisation also refers to the execution level of the partner tricks or combinations. This can either be both athletes on one pole or on two separate poles performing a mirror image of the trick or combination. In order to display the highest LOD to the judges, the athletes must be in unison in timing, execution, and range of movement.

Synchronised balanced elements (Doubles SYN 5-8)
Synchronised balancing elements refer to elements that cannot be performed without both partners, where both partners are in the same synchronised position.

Synchronised interlocking elements (Doubles SYN 2-4)
Synchronised interlocking elements refer to both partners connecting together though contact by hooking/joining to form a synchronised position on the pole. At least one part of the body must be interlocked, and athletes must perform mirror image elements. See definition under synchronisation.

Synchronised parallel elements (Doubles SYN 1)
This element must be chosen from the flexibility or strength elements in the singles section. A synchronised parallel element refers to both partners performing in either the same direction, the opposite direction or as a mirror image on the pole. Both options must be performed at the same angle to the pole. This can either be both athletes on one pole or on two separate poles. See definition under synchronisation.

Throw on to the pole (Doubles)
Both partners must begin on the floor. The catcher must throw the flyer onto the pole with force. There must be a moment when the flying partner is not in contact with the floor, partner or pole before landing on the pole.

Transition
A transition is a linking movement between spins, floor work, stage work, inverts and lifts. A direct transition is one that incorporates the least amount of movement and time from one element to another. It requires a smooth transition with no unnecessary movements.

This is an open working document and subject to change
Definitions
Athlete refers to the person invited to participate in the competition.
Category refers to the age groups and gender in each division.
Competition refers to all IPSF endorsed competitions.
Division refers to the levels of difficulty within the competition.
Document refers to this entire document.
IPSF refers to the International Pole Sports Federation.
Organiser refers to the organiser of an IPSF endorsed competition.
Routine refers to the athlete’s programme from the start to the finish and includes spins, transitions, inverts, holds, poses, tricks, lifts, acrobatics, gymnastics, slides, climbs, catches, drops, splits and floor work.
WPSC refers to the World Pole Sports Championships

Eligibility

1. Division
   - Elite
   - Professional
   - Amateur

1.1 Amateur
Athletes who have basic experience and who are able to only choose elements with the lowest technical values, may apply to participate in the Amateur division. No applicant is allowed to enter the Amateur division if they have:
   - Competed in a Professional or Elite division in any past years of any national IPSF competition and/or
   - Placed twice in the top 3 places in an Amateur division of a national IPSF competition in the past years and/or
   - Is or has been an instructor / teacher / trainer in pole sport / pole dance / pole fitness and/or
   - Has received financial compensation for pole performances or promotions.

1.2 Professional
Athletes who have a good amount of experience and who are able to choose elements with higher technical value may apply to compete in the Professional division if they are:
   - Students of intermediate/advanced classes and/or
   - Are, or have been instructors / teachers / trainers and/or
   - Athletes who have competed in a Professional division of an national IPSF competition in any of past years and/or
   - Athletes who have placed twice in any of the top 3 places in an Amateur division in any past years of a national IPSF competition and/or
   - Athletes who have received financial compensation for pole performances or promotions.

No applicants are allowed to enter the Professional division who have:
   - Competed in the Elite division in any past years of a national IPSF competition and/or
   - Placed twice in the top 3 places in a Professional division in previous national IPSF competitions

*Please note: Professional athletes, who place in the top 3, may compete in the same division for a second year.
1.3  **Elite**

The Elite division is for top athletes who are able to choose elements with the highest technical value, and who strive to compete with other top athletes and become a part of their national team to represent their country. Elite athletes are typically:

- Students of advanced classes and/or
- Instructors / teachers / trainers, both past and present and/or
- Athletes who have competed in an Elite division in any previous national IPSF competitions and/or
- Athletes who have placed twice in the top 3 places in a Professional division in the past years of a national IPSF competition.

All open competitions will offer the Elite division across all categories. Professional and amateur categories are not available to athletes competing in open competitions.

2. **Categories**

Each of the following Elite categories must be opened at national level for WPSC qualification.

- Senior Women
- Senior Men
- Master 40+ Women
- Master 40+ Men
- Master 50+ Women
- Master 50+ Men
- Junior Female
- Junior Male
- Novice Female*
- Novice Male*
- Pre-Novice*
- Novice Doubles
- Junior Doubles
- Youth Doubles **
- Senior Doubles (Men/Men) ***
- Senior Doubles (Women/Men) ***
- Senior Doubles (Women/women) ***
- Para Pole****

---

*Pre-Novice & Novice categories: Athletes aged 6 – 9 years old must compete at an Amateur level as Pre-Novice athletes. Athletes aged 10 – 14 years of age may compete at an Amateur or Elite level as Novice athletes. A 9-year-old athlete may compete at a Novice Elite level in regional and national competitions only if they will be 10 years old on the first day of the WPSC.

** Youth Doubles is a mixed age category for athletes aged 10 – 17 – i.e. one junior and one novice athlete. These athletes follow the requirements of Novice Doubles.

*** Senior Doubles are for athletes aged 18+ on the first day of the WPSC.

**** Please see Addendum 3 for all rules and requirements that are applicable to Para Pole athletes.

3. **Age**

Age eligibility for each category is determined by the athlete’s age at the end of the competitive year, on the first day of the World Pole Sports Championship.

- Pre-Novice – Ages 6-9 on the first day of the WPSC
- Novice - Ages 10-14 on the first day of the WPSC
- Junior - Ages 15-17 on the first day of the WPSC
- Senior - Ages 18-39 on the first day of the WPSC
- Master 40+ - Age 40-49 on the first day of the WPSC
- Master 50+ - Age 50+ on the first day of the WPSC
- Doubles – Novice, Junior and Senior rules apply. For mixed aged groups, the minimum age for Elite athletes applies.

*Example: A junior athlete will be 17 years old for the regional and national competitions in his/her country but will be 18 years old by the first day of the WPSC - this athlete must compete in the Senior men/women category for both the regional and national competitions (regardless of whether or not they wish to compete at the WPSC). A junior athlete who competes as an Elite may compete at a Professional level when they turn 18, should they choose to do so, for 1 year.
4. **Athlete Selection Process**

4.1. All applicants of national competitions must have citizenship or residency of the country they are competing in except when competing in Open Championships.

4.2. Deadlines must be strictly adhered to. If an athlete is late in submitting their application to compete, they will not be allowed to compete. All athletes will be given deductions for late forms and late music.

4.3. Athlete participation is by qualification, i.e. preliminaries or regional heats. The selection process can be specified by the Organiser of the national competition.

4.4. Athletes must be in the correct age category.

4.5. The athlete’s position in the running order will be determined by a random draw. This will be recorded by the competition organiser. In the case of an athlete performing in multiple categories (e.g. Senior doubles and Senior women), the competition organiser reserves the right to place the athlete (i.e. not randomising their position in the running order) to take this into account.

4.6. All eligible athletes must compete in preliminaries if required to do so to qualify for a place in the finals; athletes will compete once.

4.7. Athlete(s) may only restart their performance in the following cases:
   - A technical fault with the music.
   - A health and safety fault e.g. a problem with unsafe equipment such as a pole falling or cleaning fluid on the floor. This does not include slippery poles, since this is subjective to each athlete.
   - At the discretion of the head judge.

*Please note: if an athlete chooses to continue their performance regardless of the technical fault (for example music), they will not be allowed to restart their performance.

4.8. Athletes are allowed one (1) performance in the preliminaries to win a place in the finals.

4.9. The top athletes with the highest scores in each category will go through to the finals.

4.10. Number of finalists for all categories*
   - 10 finalists for all categories.
   - A maximum of 13 athletes is allowed; on the condition that this would eliminate the necessity for preliminaries for those categories.

*The exact number of participants will be announced after applications close. All Elite categories must be held to allow athletes in that category to compete for a place in the WPSC; even if only 1 athlete applies.

4.11. Winners are the athletes with the highest scores in their competitive categories. Should two athletes have the same final score, the athlete with the highest technical deduction points will be declared the winner. Should two athletes have the same final total technical deduction score, the athlete with the highest score in technical bonus will be declared the winner.

4.12. The title of National Pole Sports Champion 20XX or Open Pole Sports Champion 20XX (if applicable) in all categories will be a lifetime title, unless a sanction has been placed on the athlete.

4.13. Athletes who place 1st in the Elite category in an IPSF endorsed national competition will automatically qualify to compete at the WPSC. The 2nd placed athlete in the Elite category will qualify, provided that they meet the minimum score requirement as determined by the IPSF every year. The minimum point requirement as awarded at the qualifying National/Open competition for the current competition season is 25 points for all categories except for Senior Men, Senior Women and all Senior Doubles; for these three categories, the minimum point requirement is 30 points. The 3rd and 4th placed athlete can be accepted to WPSC as reserve athletes in the event that the 1st and/or 2nd placed athlete is unable to compete at the WPSC.

4.14. Athletes from countries that do not have a national competition are permitted to compete in an open competition to qualify for the WPSC. The two athletes with the highest scores for their country will qualify for the WPSC. This will be determined after the final open competition in the competition season.
Application Process

5. **Initial Application**

Failure to comply with the following may result in disqualification from the competition. (See also Head Judges Penalties in the Code of Points.)

5.1. All qualified athletes must:

- Download an application form from the organisers’ website, and complete, sign and return the application form to the organisers’ email address by the deadline. If this is not available on the website, please contact the organiser for an application form. This also applies to athletes entering an open competition.
- Pay the application fee, which is non-refundable. Application fees and payment details can be found on the application form.
- Send their music in mp3 format to the email address provided in the application pack, by the specified deadline (See Head Judges penalties in the Code of points).
- Submit their compulsory form by the deadline specified by the organiser. (See Head Judges Penalties in the Code of points). Athletes may change their compulsory forms between the preliminaries and the finals. The new forms must be submitted within one hour of the conclusion of the preliminaries or by a time stated by the competition organiser.
  *Please note: In the event of form changes between preliminaries and finals, handwritten forms will not be accepted unless specified by the organiser. Signatures may be typed.*
- Provide information about their legal gender. A copy of their birth certificate must be submitted upon request.
- Should athletes wish for their forms to be checked by the Head Judge for accuracy, an additional cost will be charged. The date for submission of forms for checking will always be two (2) weeks before the final submission of forms for competition.

5.2. All applications must be completed in the national language of the host country (or the language determined by the competition organiser). All applications for open competitions should be completed in English.

5.3. All athletes should be fit, healthy, and in the case of female athletes, not knowingly pregnant. Upon request, an athlete may be required to produce documentation from a doctor as confirmation of good health and fitness level. All information will be treated confidentially.

5.4. All athletes wishing to use grip gloves are required to produce a written letter from their doctor confirming that the athlete suffers from hyperhidrosis (sweaty hands) or similar.

5.5. All athletes must disclose if they have been previously disqualified from any IPSF competition.

5.6. Athletes may only compete in a National competition if they have citizenship and / or permanent residency in that country. In the case of dual citizenship, athletes may only represent one country in the WSPC. Athletes wishing to change their country of representation must allow for one competitive year to pass before the changeover. Doubles athletes may only represent one country, and both athletes would be required to provide this proof of residency and to adhere to these conditions. It is also important to note that, should one of the Doubles athletes have competed for a specific country in the particular year of competition (or the year before that), both athletes must compete under that country’s flag.

5.7. Applicants under the age of 18 may only apply for participation in the competition by way of written permission signed by a parent or by a legal guardian. Documentation must be provided upon request.

5.8. Applications will not be fully processed if they do not meet all of the above requirements by the given deadlines.

6. **Music Choice**

6.1. Athletes have a personal choice of music; this can be a mix of various music and artists.

6.2. The music must be instrumental only. Lyrics/words in any language or dialect are not permitted, and no religious connotation is permitted. Vocals may only be permitted if used as an instrumental accompaniment and no words are being sung.

6.3. The same music can be used for both the preliminaries and finals.

6.4. Music must be submitted by the specified deadlines or a penalty will apply. If music has not been received 48 hours before the start of the competition, the athlete will be disqualified.

6.5. Music must be submitted to the competition organiser in MP3 format or the format specified by the competition organiser by the given deadline, and must be named using the name and category of the athlete.
6.6. A copy in CD or USB stick format must be clearly labelled with the athlete's name and category, and submitted at time of registration. Failure to do so may result in the athlete not competing.

7. **Score Sheets**

7.1. Athletes must adhere to the following rules:

- Athletes must complete compulsory forms and technical bonus forms by the given deadlines.
- Forms must be completed in black print and typed; handwritten copies will not be accepted unless specified otherwise by the competition organiser.
- Athletes must sign each form; coaches may also add their signature.
- A penalty of -1 will be given for each day that either of the forms is late, up to a maximum of -5 points; after which the athlete will be disqualified.
- Forms must be completed in black ink, and must be typed into the Microsoft Word documents as provided – any other format will receive a deduction. Signatures are added electronically (and can be typed in).
- Forms must be submitted to the competition organiser by the given deadlines.

Registration Process

8. **Athlete Registration**

An athlete who does not show up to registration without a legitimate reason the athlete will be banned from all IPSF-endorsed competitions everywhere in the world for a period of one year. Names of banned athletes will be published on [www.polesports.org](http://www.polesports.org). Athletes may only cancel participation, without being penalised, a minimum of 21 working days prior to the competition. Exceptions are made for medical reasons and emergencies, in which case medical documentation and proof of travel ticket must be provided to the Organiser for confirmation a minimum of one day prior to the competition. Athletes not presenting themselves on the day of registration due to an emergency will have a maximum of seven days after the competition has ended to provide necessary proof of documentation. No exceptions will be made. See also: IPSF No Show Policy (attached below).

8.1. All athletes must arrive and register at the time designated by the Organiser, unless prior written permission is received.

8.2. In the case where the country of an athlete's origin uses both a passport and an identity card, both documents should be presented.

8.3. All athletes, including doubles, must provide proof of citizenship, residency or working visa of the country they are competing in (or representing in the case of an Open Championships). Proof must be in the accepted form of the country, e.g. green card, passport, ID card, residency papers, etc.

8.4. All athletes must sign a confirmation of the following at the time of registration:

- Rules and Regulations were read and accepted.
- The IPSF Code of Ethics was read, accepted and the athlete agrees to behave in a manner befitting a professional sports person.
- All expenses incurred by the athlete are the responsibility of the athlete and not of the Organiser.
- Waiver of all image rights and agreement that the images can be used for promotion of pole sports around the world by the IPSF and/or National Federations belonging to the IPSF. Athletes will not receive any compensation for photos and videos taken during the event.
- To be interviewed, filmed and or photographed by the media approved by the Organiser.
- To take part in anti-doping testing in accordance to the WADA Code.
- To enter the National or Open Championships at their own risk. Any injuries or accidents that may occur are the responsibility of the athlete and not of the Organiser or the IPSF.
- To respect and follow rehearsal and performance times.
- To wear their club/regional tracksuit at all times except during their performance.
- To be present at the medal ceremony unless a medical emergency has occurred which prevents attendance.

8.5. Athletes found to be causing disruptions to the competition may incur penalties or be disqualified in accordance with the published IPSF Rules and Regulations.

8.6. Athletes who do not arrive on the registration day will receive a -1 Head Judge deduction.

8.7. Please note that all IPSF competition venues are non-smoking venues – smoking will not be permitted in a 100m radius of the venue.
Competing

These rules apply to regionals, preliminaries and the finals.

9. PERFORMANCE TIME

Athletes must adhere to the following rules:

9.1. In Senior/Doubles/Master/Junior categories, routines are to last a minimum of three minutes and fifty seconds (3.50) and a maximum of four (4) minutes.

9.2. In the Pre-Novice and Novice category routines are to last a minimum of three minutes and twenty seconds (3.20) and a maximum of three minutes and thirty seconds (3.30).

9.3. The first note of music indicates the start.

9.4. The last note of music indicates the end. The last note should not exceed the allotted time in the given category.

9.5. Failure to meet the minimum or exceed the maximum time requirements will be penalised by a -3/-5 deduction, dependent on the severity.

10. COSTUME

Costumes must be appropriate for competitive athletic sports. They must fully cover the pelvis and gluteal area for all athletes and the breast area for female athletes. Athletes will be penalised by a deduction should they not adhere to the following costume requirements:

10.1. Costume must be of a sporting nature.

10.2. Costume must be skin tight in order for body alignment to be seen and judged correctly.

10.3. A two-piece or a cut-away leotard is allowed for all athletes; a one-piece bottom is allowed for men only.

10.4. The top must fully cover the breast area for women and show no added or unnecessary cleavage. It should be no less than a crop top with a strap size of no less than ten (10) millimetres in width. A neckline of no lower than eighty (80) millimetres from the lowest part of the collarbone is permitted.

10.5. Men should wear a vest, crop top, cut away leotard or be bare-chested.

10.6. The cut of the bottoms must be no higher than the fold of the hip in front (where the thigh and the hip meet), and must cover the pelvic bones fully. They must fully cover the gluteal area. There must be no cut-outs – i.e. sections of fabric missing on the bottoms.

10.7. Shorts should be no less than sports shorts, leotards or sports knickers that are appropriate attire for competitive sports. Shorts must cover the gluteal crease all the way across the body (i.e. the fold formed where the gluteal area and the thigh meet must be covered).

10.8. Long shorts or leggings may be worn, provided they are skin tight and the fabric does not add extra grip.

10.9. A skirt is allowed for women if it does not fall lower than 3cm below the pelvic area so as not to deter the athlete from having leg grip on the pole. The skirt must sit on the hip and may not protrude outwards. Ballet tutus and tutu like skirts with netting are not permitted.

10.10. Clothing that is used for extra grip on the body, hands or feet is forbidden unless medical documentation is provided.

10.11. All decorations must be fixed on the costume (non-detachable) and no added accessories and/or props are permitted. Any and all accessories that may jeopardise the safety and/or distract from the performance of the athlete are not permitted. This includes piercings, loose hair-pieces, earrings, bracelets, necklaces and any other jewellery. No neck accessories or wrist bands are allowed.
10.12. Medical taping may not be used except for medical tapes in a skin colour. Any joint support must be pre-approved, with medical documentation.

10.13. Shoes: the athlete may perform either bare foot or with skin-coloured gymnastic/dance sole protectors. Heels, ballet shoes/slippers and/or slipper-like footwear are not permitted.

10.14. Costumes should not include:
- Underwear.
- Items of clothing that give the illusion of underwear are prohibited.
- Nude / skin colour cannot be the same colour as the athletes’ actual skin tone.
- Implied nudity is prohibited (this includes nude mesh fabrics).
- Swimwear or bikinis.
- Transparent clothing that does not cover the breast, pelvis and gluteal area.
- Leather, latex, PVC or rubber.
- Jewellery and piercings of any kind; small stud earrings and a small ear plug are permitted.
- Anything that interferes with the performance or can be considered a health and safety issue.
- Face paint on the entire face.
- Body paint or oil on any part of the body. (Make up and embellishment may be worn on the face only.)
- Props such as hats and canes and anything that is not considered attached to the costume.
- Hoods cannot be attached to costumes.

10.15. Additional requirements:
- Costumes for all may include sequins and diamantes; tassels or fringing must be kept to a minimum, must not be longer than 3cm and is only allowed to cover material.
- Decorations for Youth category (Pre-Novice, Novice and Junior) should be age and costume appropriate.

10.16. It is expressly forbidden to perform in anything other than sporting attire. Costumes, or any part thereof, must not be intentionally removed. Failure to adhere to these rules may result in disqualification.

10.17. Costumes must be free from sponsor logos or lettering / text.

10.18. All athletes and their IPSF-registered coaches must have tracksuits according to the requirements set out below:
- Tracksuits must be sports tracksuits and must include: matching trousers, t-shirt/tank top and a jacket. Hoodies/hood-style tops are not allowed.
- Under hot weather conditions it is acceptable to wear the t-shirt or tank top instead of the jacket except during the medals ceremony.
- National Tracksuits for use during WPSC must follow the rules set out in the Rules & Regulations for the WPSC as stated in Addendum 2.
- Trainers must be worn with tracksuits. Bare feet are also permissible. No other shoes are permitted.
- Members representing the same team must all wear the same tracksuit. Should the athlete not be representing a specific team/club/school/studio/region, the athlete will be required to purchase a Federation tracksuit (this is not the same as a National Tracksuit).
- Team/ club/school/studio/region logos must be worn on the tracksuit, either on the front or the back. The size of the logo cannot be more than 10x10cm.
- One individual sponsor’s logo might be worn on the jacket and up to five (5) sponsor logos may be worn on the t-shirt/tank top. The size of the logos cannot be larger than 10x10cm, and must be smaller than the team/club/school/studio/region logo.
- Other logos, imagery and writing cannot be displayed on the tracksuit.
- Athletes competing in the Open competitions will be required to wear their national tracksuits. All Open athletes representing the same country must coordinate and wear the same tracksuit. Please contact the IPSF if you need assistance with coordinating this.
- Only athletes and IPSF recognised coaches are permitted to wear the official tracksuit.
11. **Hair and Makeup**

*Please note: Failure to adhere to the following restrictions will result in a deduction.*

11.1. Hair should be pulled back and up away from the face and neck so that full facial features, facial expression and neck alignment are clearly visible to the judges. There should be no distraction by the need to wipe hair away from the face or neck.

11.2. Makeup for the Youth category is only to be used to highlight natural features and therefore should only be applied lightly. The one exception to this rule is if the routine is theme orientated.

11.3. Make up for adults may be worn to reflect their performance. This may include but is not limited to eyelashes, embellishments and rhinestones. Face paint is allowed on not more than half of the face. It is also forbidden to wear a mask, wear face paint on the entire face, or body paint of any kind.

11.4. Wigs are prohibited.

12. **Grips**

12.1. Any grip product can be used except for the banned list available on the IPSF website. Please be advised that NO products are to be applied to the pole. Grip aids may only be applied to the athlete’s body. Please refer to the IPSF website for the full, updated list.

12.2. Grip gloves may only be used with medical documentation (as stated above under section 10: Costumes).

13. **Stage**

13.1. The stage has a minimum of three (3) metres clearance in front, side and behind each pole. There are between 2.90 and 3.10 metres between the poles.

14. **Poles**

14.1. Competition poles are 45mm brass poles, four (4) metres of usable height and made of one piece.

14.2. The spinning pole is placed on the right hand side and the static pole on the left hand side of the stage from the spectators’ view. All athletes must use the same configuration.

14.3. Cleaning of the poles:

- The poles will be cleaned before each athlete competes by at least of two (2) pole cleaners (one or two per pole). Poles will be cleaned in their entirety; first with a grease remover, then with a dry towel/cloth.
- Athletes are allowed to check the poles before they compete and may ask for a second cleaning.
- Athletes may clean the poles themselves if they prefer but must use the cleaning products provided by the organiser.
- Athletes are prohibited from cleaning the poles with their own cleaning products. The only exception to this rule is where the athlete experiences severe allergies and requires a specialised cleaning product, in which case medical documentation must be provided.
15. Filming

15.1. All athletes confirm that, by taking part in the National or Open Championships, they waive all rights of filming and photography and will not receive any compensation for photos and videos taken during the event. All athletes must agree that their images can be used for advertising, training, promotional and commercial purposes by the IPSF and/or National Federations belonging to the IPSF.

15.2. All athletes agree to be interviewed, filmed and or photographed by IPSF approved media.

15.3. All athletes must agree to filming/photography at any event in which they appear before, during or after the competition, that is related to the competition (such as workshops, interviews, performances, etc.)

15.4. Filming and photography is not permitted in the changing areas unless with the express permission of the Organiser.

15.5. All photography and footage remains the property of the Organiser.

Judging

16. Judges and Judging System

16.1. Once judging has finished and all immediate appeals and complaints have been processed, no further adjustments will be made to the results.

*See: system of complaints and appeals.

16.2. Scores from preliminaries and finals are not added together.

16.3. Judges must be separated from the athletes and spectators at all times.

16.4. Judges and athletes will be disqualified if they are found discussing any matters together at any time during the competition.

16.5. Judges may not compete in the same year in which they are judging. Similarly, judges may not be IPSF recognised coaches at competitions in the same year in which they are judging. Competition organisers/federation committee members may not compete, judge or be an IPSF recognised coach at the competition they are hosting (unless extenuating circumstances are presented to the IPSF executive in writing).

17. Penalties

An athlete can be penalised by the Head Judge during the competition for the following infringements:

*See also: Head Judge Penalties

17.1. Breaking the rules, regulations and code of ethics. Penalties are dependent on the infringement.

17.2. Providing false or inaccurate information on the application form. Penalties are dependent on the infringement.

17.3. Unsporting or anti-social behaviour.

17.4. Failure to meet the minimum or exceed the maximum requirements of the routine time.

17.5. Touching the rigging or truss system while competing. This includes touching the backdrop on the stage.

17.6. Directly contacting the audience from the stage (such as gestures, talking to the spectators etc.).

17.7. Inappropriate choreography, costume, hair and makeup (as specified above). Penalties are dependent on the gravity of infringement.

17.8. Presence of jewellery and props (as specified above).

17.9. Not complying with the tracksuit requirements or wearing an inappropriate tracksuit (as specified above).

17.10. Arriving late to registration and rehearsals (or not arriving at all) without prior agreement.

17.11. Arriving late backstage before competing.

17.12. Arriving late to the stage when announced.

17.13. Athletes caught being cued from off-stage during their performance (this includes being cued from the audience).

17.14. Athletes and/or their coaches/representatives approaching the Judges’ table and/or room or obstructing Judges’ view at any point during the competition.

17.15. Head Judges reserve the right to apply penalties at any point during the competition, or afterwards if they deem so necessary. Should this result in a change in podium position, the organiser will amend and award the medals correctly as necessary.
18. Results
18.1. All results are collated via computer.
18.2. Results will be collated and provided in accordance with the National Scoring Information.
18.3. Preliminary results will be given to athletes when their scores are announced.
18.4. Athletes must wait for their scores in the designated area. Only IPSF-registered coaches are permitted to accompany the athletes. Athletes and coaches must be dressed in their tracksuits while awaiting results.
18.5. All results will be listed on the organisers’ website within twenty-four (24) hours of the medal awards being given.
18.6. All athletes who qualify for WPSC will be listed on the IPSF website within twenty-four (24) hours.

19. Awards
19.1. At the National Championships, each athlete competes for the title of National Pole Sports Champion 20XX. At the Open Championships, each athlete competes for the title of Open Pole Sports Champion 20XX.
19.2. Only sporting training shoes or bare feet are permitted on stage at the medal ceremony.
19.3. The winner from each category in each division will receive a gold medal.
19.4. The second and third placed athlete will receive a silver and bronze medal respectively.
19.5. All other athletes will receive a certificate of participation.
19.6. Cash or other gifts must not be given other than by way of endorsements or sponsorships. All sponsorship agreements offered in relation to athletes will be announced by the Organiser before the competition, as soon as possible after the agreement has been made and before the finals of the competition begin.

20. Coaches
20.1. In order to be an IPSF-registered coach, the coach must have completed at least a Code of Points course as well as an Anatomy qualification (which includes warm up and cool down, and has an exam incorporated in the course - this can be either a University course or the IPSF Anatomy, Physiology and Biomechanics course). A coaching course is also highly recommended. The coach should then submit these qualifications to the IPSF, and will be required to pay a registration fee. This fee is applicable per year.
20.2. All coaches that sign the athletes' compulsory and technical bonus forms must be IPSF-registered coaches. Only the IPSF-recognised coach who signs the forms will be considered the athlete's coach, and thus only this coach will be afforded the privileges that accompany the title.
20.3. All coaches must complete their certification a minimum of 2 weeks before the competition at which they wish to represent their athlete. Coaches must submit this proof 2 weeks before the competition (in other words, should the coach be doing a course which requires exams to be marked, the timelines of this course must be respected; for all IPSF courses where video exams are undertaken, 2 weeks must be given to mark the video exam.)
20.4. The coach must be dressed in the matching tracksuit of their club/school (Nationals) or country (at International competitions).
20.5. Only an IPSF-registered coach may accompany the athlete on the Kiss and Cry couch, and they, like the athlete, must be dressed in their tracksuit and trainers/bare feet only.
20.6. Youth athletes (any athlete under the age of 18) may have an IPSF-registered coach with them on the Kiss and Cry couch, even if this coach is not their registered coach for the competition.

21. Disqualification
An athlete can be automatically disqualified before, during or after the competition. The IPSF also reserves the right to revoke the title of an athlete for the following infringements:
21.1. Breaking the rules and regulations or code of ethics. Disqualification is dependent on the infringement.
21.2. Providing false or inaccurate information on the application form. Disqualification is dependent on the infringement.
21.3. Unsporting behaviour or bringing the competition, Organiser, or the IPSF into disrepute.
21.4. Threatening the life or health of an athlete, organiser, judge or spectator.
21.5. Failing to come to the stage.
21.7. Inappropriate choreography, costume, hair and makeup (as specified above). Disqualification is dependent on the infringement.
21.8. Intentionally removing items of clothing during their performance.
21.9. Intentionally using the rigging or truss system as part of their performance.
21.10. Any unauthorised person accompanying the athlete on stage.
21.11. Directly contacting the judging panel to discuss the competition, or directly or indirectly influencing the judging decision prior to or during the competition.
21.13. Testing positive for controlled substances (see Medical and Doping Regulations).

Medical and Doping Regulations

22. DOPING SANCTIONS

In the case of a positive result or the refusal of doping control, the following penalties shall apply as final:
22.1. An athlete with a positive out-of-competition test is automatically suspended for the rest of the championship and no replacement for him/her is allowed.
22.2. The points awarded to a team with a doped athlete are not valid.
22.3. An athlete with a positive test will be suspended from all IPSF endorsed competitions for a period outlined in the WADA Code.
22.4. A positive result for anabolic steroids will result in suspension from all IPSF endorsed competitions for a period of four years. A doped athlete will not be awarded a medal or title.
22.5. In all positive doping cases, the recommendations of WADA shall have precedence over any disciplinary action by the IPSF.
22.6. Athletes with an anti-doping sanction may have previously-won titles taken away from them.

23. SEX REASSIGNMENT IN SPORT

The IPSF has adopted the guidelines, recommendations, rules, and regulations of the IOC Medical Commission - Sex Reassignment in Sport 2003:
23.1. Any “individuals undergoing sex reassignment of male to female before puberty should be regarded as girls and women” (female). This applies as well for female to male reassignment, who should be regarded as boys and men (male).
23.2. Individuals undergoing sex reassignment from male to female after puberty (and the converse) may be eligible for participation in female or male competitions, respectively, under the following conditions:
   • Surgical anatomical changes have been completed, including external genitalia changes and gonadectomy.
   • Legal recognition of their assigned sex has been conferred by the appropriate official authorities.
   • Hormonal therapy appropriate for the assigned sex has been administered in a verifiable manner and for a sufficient length of time to minimise gender-related advantages in sport competitions.
   • In the opinion of the group, eligibility should begin no sooner than two years after gonadectomy.

It is understood that a confidential case-by-case evaluation will occur. In case that the gender of a competing athlete is questioned, the medical delegate (or equivalent) of the relevant sporting body shall have the authority to take all appropriate measures for the determination of the gender of an athlete.

Rights and responsibilities

24. RIGHTS AND RESPONSIBILITIES OF THE ATHLETES

24.1. All athletes must read the rules, regulations and any updates.
24.2. All athletes must conduct themselves in accordance with the IPSF rules, regulations and Code of Ethics.
24.3. All athletes must sign the IPSF Code of Ethics and behave accordingly.
24.4. Athletes under the age of 18 should have an approved chaperone (parent/authorized legal representative/coach) with signing authority.
24.5. All athletes are required to carry identification documents to the competition.
24.6. All athletes are fully responsible for their personal health condition and ability to compete. To avoid injury, no athletes should undertake elements they are not fully confident and secure in.

24.7. All athletes enter the National or Open Championships at their own risk and understand that any injuries or accidents that may occur are their responsibility.

24.8. All athletes must attend the opening ceremony and preliminary results ceremony (if applicable) unless a medical emergency has occurred that prevents attendance, or unless they are one of the first 2 athletes to compete. All finalists must attend the medal ceremony unless a medical emergency has occurred.

24.9. Use of alcohol or banned or controlled substances before or during the competition is strictly prohibited.

24.10. All athletes must agree to take part in anti-doping testing in accordance with the WADA Code. For a list of prohibited substances please see https://www.wada-ama.org. Failure to supply a testing sample when requested to do so will result in the athlete being disqualified from the competition, a revocation of any title won and the possibility of a ban from further IPSF competitions.

24.11. All expenses incurred by the athlete are the responsibility of the athlete and not the Organiser. Confirmation of this will require a signature at the time of registration.

24.12. Athletes who are entering an international open championship are required to purchase/acquire the relevant visa for entry into the country where the competition is being held. If the athlete requires assistance in this regard he or she should please contact the competition organiser.

24.13. All athletes have the right to receive all available public information regarding the scoring system or to the competition in general which can be found on the IPSF website: www.polesports.org.

24.14. During the preliminaries and finals:
- All athletes must compete with their same gender category except in the case of doubles and if a category is mixed.
- Athletes should be backstage two athletes prior to competing.
- Athletes must start off stage and wait to be announced before walking out on to the stage.

25. RIGHTS AND RESPONSIBILITIES OF THE ORGANISER

The IPSF and/or Organiser reserve the right to the following:

25.1. To alter the rules and regulations of the competition or its attachments at any time. Any change will be announced immediately on www.polesports.org.

25.2. To refer to the Head Judge any athlete in breach of the rules and regulations or code of ethics for the consideration of penalties or disqualification.

25.3. To refer to the Head Judge any judge in breach of the rules and regulations or code of ethics for the consideration of disqualification.

25.4. To decide on any decisions not already addressed in the rules and regulations and code of ethics prior to or during the competition.

25.5. The Organiser will provide basic first aid in the case of an incident or accident and medical assistance in the event of a more serious injury. The medical representative has the final decision on whether the athlete’s injury should prevent them from entering or continuing the competition.

25.6. The IPSF and the Organiser cannot be held responsible for loss or damage to athletes’ or officials’ items.

The Organiser is required to:

25.7. Publish all competition criteria as stated above.

25.8. Announce all changes regarding the competition on the competition organiser’s website.

25.9. Provide rooms for athletes to change and warm up in, with toilet facilities which are separate from those being used by judges and spectators.

25.10. Provide a separate area for youth athletes to change in or a fixed time slot for the changing rooms to be for their sole use.

25.11. Check the installation of the poles and test them.

25.12. Give athletes a chance to practice with the poles before the start of the competition.

25.13. Arrange the cleaning of the poles before each performance.

25.14. Provide the judges with all necessary information concerning the competition.

25.15. Provide interim first aid in the case of an incident or accident.

25.16. Provide anti-doping testing in accordance to the WADA Code (www.wada-ama.org).
Complaints and appeals

26. **Scoring System**

26.1. For complaints about scores, athletes may lodge an appeal regarding their scores within 10 minutes of the athletes’ personal scores being announced in accordance with the IPSF national scoring appeals procedure. After this time, scores will not be overturned. There is a cost involved, which will be returned should the complaint or appeal be upheld.

*See: IPSF National Scoring Information below.*

26.2. Further complaints about any other issue must be made in writing to the competition organiser within 7 working days.

26.3. For more information please contact the competition organiser.

26.4. The process for contesting is as follows:

26.4.1. Indicate your intent to contest within 10 minutes of the announcement of your score.

26.4.2. You will be allowed access to watch your video by the competition organiser to determine whether you do want to go ahead with your contesting. You will be allowed 5 minutes to watch your video. You will be allowed to watch your video alone or with your IPSF-recognised coach and a technical support person, if necessary (technical support person relating to equipment and not athlete/competition related). Youth athletes may have their chaperone watch with them.

26.4.3. A non-refundable deposit will be required to watch the video. This price will be determined by the competition organiser in collaboration with the IPSF.

26.4.4. Once you have determined that you do want to contest, you will be required to pay the contesting fee as determined by the competition organiser in conjunction with the IPSF. The competition organiser will communicate the process for this.

26.4.5. Please note that this fee will be applicable per judging section – i.e. you will be required to pay for each section you wish to contest. For example, if you wish to contest both Compulsories and Technical Deductions, you will be required to pay separately for each of these.

26.4.6. Once your payment has been received, the Head Judge of the competition will manage your contest. This will only happen once confirmation of payment has been received. The Head Judge will judge the video privately, and explain the decision afterwards, if necessary.

26.4.7. Should your contest / complaint be upheld, the competition organiser will refund your payment. Should your score / results remain the same or go down, your money will not be refunded.

26.4.8. Your score will be updated at the earliest convenience of the competition organiser, but will be done before the final medal ceremony.

26.4.9. The contesting judge’s decision is final and no negotiation will be entered into.
IPSF Scoring System

This is information for athletes and coaches about the scoring system used for National Championships and will explain how the scores will be given, when final results will be announced and extra information you need to know.

Personal scores
Your total scores will be announced within ten minutes of completing your routine. After you have competed you are required to wait with your coach/chaperone in your tracksuit to hear your scores. You will be given your scores for each section.

Finalists (In the case of preliminaries)
The finalists from each category in the preliminaries will be announced at the end of the category approximately 5 - 10 minutes after the last athlete has competed. All athletes for the category are expected to be waiting in the holding area in their tracksuits to immediately go to the stage when called. All athletes will then go on to the stage and each finalist will be asked to step forward, in no particular order. Athletes will then be asked to leave the stage, finalists will be asked to wait backstage for further instructions. A copy of all athletes’ scores will be posted in the changing rooms.

Finals
The results for all categories on finals day will be announced at the end of the competition at the award ceremony. Athletes are expected to be dressed in their tracksuits ready to go to the stage when called approximately 15 minutes after the last athlete has competed. Each category will be invited to the stage and the winners will be announced with their total scores. All total scores will also be posted on the competition website and WPSC qualifying athletes on the IPSF world ranking.

Feedback
No feedback will be given regarding individual routines; all the videos will be online as soon as possible after the competition for athletes and coaches to self-assess their performances.

Guidance on your scores
**Compulsory** – A low score indicates the minimum requirements of the elements were not met, an element was missing or elements were in the wrong order. Points will not be awarded for any element that is on the border. The elements need to be executed correctly in accordance with all of the minimum requirements.

**Technical Bonus** – A low score may indicate a lack of tricks executed in accordance with Code of Points requirements, a low level of difficulty of all the moves chosen in the routine, or both.

**Technical Deduction** – A low score mostly indicates poor execution of moves and lines plus specific requirements either not being met or occurring as stated in the Code of Points.

**Artistic and Choreography** – A low score indicates lower scores in sections such as flow, confidence, costume etc.

Your scores
Should you have a complaint about your score in a specific section, you are entitled to contest the score you were awarded provided you register your complaint within 10 minutes of receiving your scores. Only complaints regarding specific sections will be permitted within 10 minutes. Please follow the correct procedure on the Scoring Complaints document if you wish to contest your scores.

Fees – as determined by the National Federation and the IPSF
There is a fee for registering a complaint about scores, should any scores be amended upwards, the fee will be immediately returned to the athlete. The fee is payable upon registration of the complaint by cash or credit/debit card only to the IPSF – the national competition organiser will organise payment facilities. The fee is payable per section being contested.
IPSF COMPETITIONS NO-SHOW POLICY

Purpose
This policy outlines the International Pole Sports Federation’s (IPSF) approach to athletes who apply for competitions both nationally and internationally and don’t attend the events.

Context
This policy has been introduced as a result of the frequency of occasions where competitors do not attend and compete at competitions they have entered without informing the competition organisers. This policy will help to eliminate the following problems:

- Preventing other athletes from participating in competitions
- Causing delays to the organisers
- Disappointing sporting fans and spectators
- Disrupting competition schedules
- Creating difficulties with sponsors

Expectations for Informing Competition Organisers
Athletes who are unable to attend competitions they have entered need to adhere to at least one of the following expectations depending on the reason for non-attendance and how long before the competition athletes wish to cancel their attendance:

1. Athletes are expected to inform national and international competition organisers that they will not be attending. The time limit for this is three weeks before the date of competition. It is the athlete’s responsibility to know the cut-off date
2. Athletes who have to cancel their attendance after the cut-off date must inform the competition organisers as soon as possible (it is acceptable for someone to do this on their behalf). A medical certificate (with a copy translated into English if the original certificate isn’t in English) must be submitted to the competition organiser.
3. Athletes who do not have a medical reason for not attending at short notice will need to submit their reasons to the competition organiser to be assessed by the IPSF Executive Committee to decide if the reason is acceptable. If not, the sanctions below will be applied to the athlete.

IPSF Notification Procedures
1. Athletes have up to seven days after the competition date to submit the appropriate as stated above.
2. If a form is not submitted after seven days, the IPSF will write to the athlete explaining they are now being registered as a no-show.
3. If there is no response the IPSF will register the athlete as a no-show with the current sanctions (detailed below).
4. To register an appeal, the athlete must do so within seven days from receipt of the notification of being registered as a no-show. An appeal will be assessed by the IPSF Executive Committee.

Sanctions
Athletes who do not satisfy the criteria for non-attendance at an IPSF national or international competition will be registered as a no-show athlete and will be banned from all regional, national and international competitions for a period of one year from the date of the competition. All details (names and competition) will be published on the IPSF’s national and international websites.
These elements and movements are completely prohibited, and are additional to prohibited movements and elements listed in the Code of Points. This prohibition is subject to an agreement with FIG regarding coexistence of the two bodies, and is directly from the FIG Aerobic Gymnastics Code of Points (along with stipulations regarding other gymnastics codes already listed in this document). Please note the penalties that will apply per infringement. If in doubt, please visit the IPSF website for links to the videos of these elements (or use the links below).

### ADDENDUM 1

**PROHIBITED ELEMENTS/MOVEMENTS**

These elements and movements are completely prohibited, and are additional to prohibited movements and elements listed in the Code of Points. This prohibition is subject to an agreement with FIG regarding coexistence of the two bodies, and is directly from the FIG Aerobic Gymnastics Code of Points (along with stipulations regarding other gymnastics codes already listed in this document). Please note the penalties that will apply per infringement. If in doubt, please visit the IPSF website for links to the videos of these elements (or use the links below).

</tbody>
</table>
The following elements and movements are limited, meaning that they may not be performed more than once per routine, and are additional to prohibited movements and elements listed in the Code of Points. This means that athletes may perform each movement no more than once per routine. This limitation is subject to an agreement with FIG regarding coexistence of the two bodies, and is directly from the FIG Aerobic Gymnastics Code of Points (along with stipulations regarding other gymnastics codes already listed in this document). Please note the penalties that will apply per infringement.

Additional to the below elements, the following are also limited to one per movement per routine only:
- Pivots
- Walkovers (forwards and backwards, including starting on the floor)
- Capoeira movements
- Cartwheels of any kind
- Round-offs

As a general rule, no elements/movements with a turn of more than 720° are allowed.
If in doubt, please visit the IPSF website for links to the videos of these elements (or use the links below).

ADDENDUM 2

The rules below are to serve as an addendum to the National Rules, and apply to the WPSC competition. These rules are to be read alongside the National rules. Where there is a contradiction between these rules and the National rules, these rules take precedence for WPSC.

Please note that all communication with the competition organiser will be conducted via athletes@polesports.org.

Eligibility

1. **DIVISION - ELITE**
   - Only Elite athletes qualifying in IPSF endorsed competitions are eligible to qualify for WPSC.
   - Athletes placing first (1st) and second (2nd) in an Elite category at National Championships will automatically qualify to the WPSC.
   - Reserve Elite athletes may apply to WPSC in the case of a qualified athlete being unable to attend/compete.

2. **CATEGORIES**
   Each of the following Elite categories will be included at the WPSC. Only two athletes may represent each country in all categories.
   - Senior Women
   - Senior Men
   - Master 40+ Women
   - Master 40+ Men
   - Master 50+ Women
   - Master 50+ Men
   - Junior Female
   - Junior Male
   - Novice Female
   - Novice Male
   - Doubles Novice
   - Doubles Junior
   - Doubles Youth
   - Doubles Senior (Men/Men)
   - Doubles Senior (Women/Men)
   - Doubles Senior (Women/women)
   - Para Pole

4. **ATHLETE SELECTION PROCESS**
   4.1 All applicants of WPSC must have citizenship or residency of the country they are representing.
   4.3 Athlete participation is by qualification at a National or Open Championships.
   4.6 **There will be no preliminary rounds for the WPSC. All qualifying athletes will compete in the finals. This applies to rules number 4.7 to 4.10.**
   4.12 The title of World Pole Sports Champion 20XX in all categories will be a lifetime title, unless a sanction has been placed on the athlete.
   4.13 Only two athletes per category are permitted to represent each country.
   4.14 The second or third runner up (3rd and 4th athlete) can be accepted to WPSC as reserve athletes. (Reserve athletes must apply under the same conditions to the WPSC)
Application Process

5. **Initial Application**

5.1. All qualified athletes must:
- Fill in the on-line application form. The link will be provided in the application pack sent to each qualifying athlete.

5.2. All applications must be completed in English.

5.6. Athletes must represent the country they qualified in at their national competition, or the country that was declared at an open competition. In the case of dual citizenship, athletes may only represent one country in the WSPC. Athletes wishing to change their country of representation must allow for one competitive year to pass before the changeover. Doubles athletes may only represent one country, and both athletes would be required to provide this proof and adhere to these conditions. It is also important to note that, should one of the Doubles athletes have competed for a specific country in the particular year of competition (or the year before that), both athletes must compete under the flag of this country.

5.9. Should one athlete in a doubles partnership be injured before the WPSC, and thus not able to compete (having submitted a doctors’ letter), no replacement of the doubles partner will be permitted. The doubles pair would be required to withdraw should one partner be unable to compete.

6. **Music Choice**

6.5. Music must be submitted in MP3 format by the given deadline as stated in the Welcome Pack to athletes@polesports.org.

6.7. Should the athlete wish to have their CD or USB returned, they must indicate this during the rehearsal time, and please collect this from reception within an hour of the final category on the final day of competition.

Registration Process

8. **Athlete Registration**

8.2. All athletes must bring their passport with one (1) photocopy of it to provide at registration. If in the country of athlete’s origin both a passport and an identity card are used, both should be brought with them.

8.4. All athletes must sign a confirmation of the following at the time of registration:
- All expenses incurred by the athlete are the responsibility of the athlete and not of the IPSF.
- To be interviewed, filmed and or photographed by the media approved by the IPSF.
- To enter the World Pole Sports Championships at their own risk. Any injuries or accidents that may occur are the responsibility of the athlete and not of the Organiser or the IPSF.
- To wear their national tracksuit at all times except for during their performance.

8.6. All athletes must provide evidence of personal accident insurance / medical cover if applicable that covers them for the duration of the competition. This should start the day of the WPSC rehearsals and be valid during whole competition. Please provide this in English, or provide a translation with the original.
Competing

10. COSTUME

10.18. Only athletes and IPSF-registered coaches may wear the National tracksuit. All athletes and IPSF-registered coaches should have tracksuits according to the requirements, and the following rules must be observed:

- Athletes must wear a tracksuit representing their country.
- Tracksuits must include: matching trousers (leggings are not allowed on stage), t-shirt/tank top and a jacket. Hoodies/hood-style tops are not allowed.
- In hot weather, it is acceptable to wear the t-shirt or tank top instead of the jacket except during the medals ceremony.
- One individual sponsor’s logo may be worn on the jacket and up to five (5) sponsor logos may be worn on the t-shirt/tank top. The size of the logos cannot be more than 10x10cm.
- National teams must ensure that all athletes have the same matching tracksuits. National federation logos can be worn. The size of the logo cannot be more than 10x10cm.
- Other logos, imagery and writing cannot be displayed on the tracksuit.
- Athletes representing the same country must all wear the same tracksuit. Where there is no federation in the country being represented (i.e. athletes qualified through Open competitions), athletes must coordinate to wear the same tracksuit. Please contact the IPSF if you require assistance in coordinating this.
- Only athletes and IPSF recognised coaches are permitted to wear the official tracksuit.

19. AWARDS

19.1 At the WPSC, each athlete competes for the title of World Pole Sports Champion 20XX.
ADDENDUM 3

PARA POLE

The rules below are to serve as an addendum to the IPSF Code of Points and the National Rules, and apply to the Para Pole division. These rules and amendments are to be read alongside the IPSF Code of Points and the National rules (and Addendum 2 when applicable to WPSC).

Challenging the interests of para-sport is the threat of one-sided and predictable competition, in which the least impaired athlete always wins. To prevent this, para-athletes are placed in categories for competition based on their impairment - these are called sport classes. The IPC classification system determines which athletes are eligible to compete in a sport and how athletes are grouped together for competition. This, to a certain extent, is similar to grouping athletes by age, gender or weight.

In para-sport, athletes are grouped by the degree of activity limitation resulting from the impairment. Different sports require athletes to perform different activities. As sports require different activities, the impact of the impairment on each sport also differs (sourced from Classification Model Rules for Para Sports, January 2017- IPC International Paralympics Comité, available at www.paralympic.org/classification). Therefore, to minimise the impact of impairment on pole sport performance, classification is now pole sport specific.

In Pole Sports, the IPSF has selected the following eligible conditions to be part of Para Pole with further classifications and rule modifications:

1. Impaired muscle power:
   a. Group one: PPMP1 – Able to walk
   b. Group two: PPMP2 – Use of wheelchair

2. Limb deficiency:
   a. Group one: PPLD1 - Absence of one arm, amputation or congenital limb deficiency above the elbow
   b. Group two: PPLD2 - Absence of one leg, amputation or congenital limb deficiency above the knee
   c. Group three: PPD3 - Absence of one arm, amputation or congenital limb deficiency below the elbow
   d. Group four: PPD4 - Absence of one leg, amputation or congenital limb deficiency below the knee.

3. Vision impairment:
   a. Group PPVI: legally blind

Description of eligible impairments accordingly to the International Paralympic Organisation:

1.- Impaired muscle power: Reduced force generated by muscles or muscle groups, such as muscles of one limb or the lower half of the body, as caused, for example, by spinal cord injuries, spina bifida or polio.

2.- Limb deficiency: Total or partial absence of bones or joints as a consequence of trauma (e.g. car accident), illness (e.g. bone cancer) or congenital limb deficiency (e.g. dysmelia).

3.- Visual impairment: Vision is impacted by either an impairment of the eye structure, optical nerves or optical pathways, or the visual cortex. A visual capacity of 5% or less.
**Para Pole Category Criteria:**

- There is no limit on age.
- Only singles are allowed to participate; there is no doubles category.
- Only Elite division will be open for competition.
- The Para Pole Athlete must provide documentation supporting their eligibility to compete in their respective Para Pole category.

The following amendments and exceptions have been made for the Para Pole division:

- **Compulsories:**
  - Para Pole athletes will be required to adhere to the same criteria as amateur division in terms of number of elements chosen, the eligible point range allowed and the range of elements to choose from.
  - In addition, a 20° tolerance is allowed on all flexibility and strength elements.

- **Technical deductions:**
  - **Singular deductions:**
    - Poor execution and incorrect lines will not be judged for any Para Pole athletes.
    - Poor transition in and out of elements and on and off the pole will also not be judged for any Para Pole athletes.
  - **Overall deductions:**
    - The criteria for total height of pole is amended for Para Pole athletes - this category will only be required to use 50% height of the pole.

- For the limb deficiency group: the use of prosthetics will be allowed.
- For visual impairment:
  - In the case of an athlete with a visual capacity of more than 5%, but who is still classified as having a visual impairment, the athlete will be required to wear a plain black blindfold that covers the vision of the athlete and thus bring their visual capacity to the same level as that of the other athletes in this category.
  - Additionally, the athletes’ coaches will be allowed to cue the athlete from off-stage during the routine. This will be strictly regulated, and only the following will be allowed:
    - The angle of the elements in relation to the judges using the numbers of the clock (For example turn to 3 o clock etc.) will be allowed.
    - Words as right and left, floor and roof, and distance to the poles will be permitted for the safety of the athlete.
    - The coach and the athlete will also be required to provide and use an emergency word like STOP, in case of danger, falling off the stage, or the athlete colliding with the poles.
    - Any other kind of cueing from off-stage (for example regarding the lines of the toes and knees, holding 2 seconds, or spins of 360 and 720) will be penalised by the head judge.
- All Para Pole athletes will be required to present a doctor’s certificate to the competition organiser prior to the competition, certifying that they qualify for their particular division, and may be required to provide further information if requested.
