### What to complete on the form

#### Order:

This refers to the technical bonuses the athlete chooses to perform in their routine.

Order No. 1 = first technical bonus performed in routine.

Order No. 2 = second technical bonus performed in routine, etc.

### Bonus Code:

The athlete(s) must fill in the Bonus Code that correlates with the bonuses they want to perform, as specified in the Code of Points. It is important to list the Bonuses in the correct order of sequence, as they will be executed in their routine. If an athlete chooses to combine two or more technical bonuses, they should write these in the same box. Combinations of 2 or 3 technical bonuses can be written on the same row; long sequences of technical bonuses can be written over several rows. The technical bonus performed first in the combination should be listed first. (See the example score forms).

\* The bonuses and their codes are to be found in the technical bonus section under singular bonuses.

### Technical Value:

The athlete(s) must fill in the technical value of the technical bonus as specified in the Code of Points. It is important for the athlete to fill in the correct technical value corresponding to the technical bonus they have chosen. If an athlete chooses to combine two or more technical bonuses, they should write the technical values in the same box. The technical bonus performed first in the combination, should be listed first.

\* The bonuses and their technical values are to be found in the technical bonus section under singular bonuses.

### Multiple singular bonuses in succession/sequence

If an athlete chooses to combine two or three technical bonuses in immediate succession, he/she should write this in the same box, with a + between each code. The one performed first in the combination, should be listed first. If any more bonuses are being combined, write them in the next row. Examples:

- 2 re-grips should be indicated as: **JO + JO**, with a bonus technical value of **0.2 + 0.2**
- An acrobatic catch, followed by a drop, followed by a jump off should be indicated as: **AC + JO + JO**, with a bonus technical value of **0.5 + 0.2 + 0.2**

### Special notes regarding dynamic combinations

If multiple bonuses are combined to create a dynamic combination, note the dynamic combination in brackets after the combination of the two bonus codes (e.g. **AC + JO (DC)**). If a single bonus is combined with another dynamic movement not covered by the singular bonus options, the dynamic combination is still indicated in brackets after the bonus code (e.g. **JO (DC)**). Please refer to the definition of Dynamic Combination in the Code of Points to make sure the correct dynamic movements are being used the permitted number of times.

Example:

- 2 acrobatic catches that also make a dynamic combination: **AC + AC (DC)**, with a bonus technical value of **0.5 + 0.5 + 0.5**

Examples entered in the form

Order	Bonus code	Bonus TV	Score (judge only)	Notes (judge only)
1	JO + JO	0.2 + 0.2		
2	AC + CF + JO	0.5 + 0.5 + 0.2		
3	AC + AC (DC)	0.5 + 0.5 + 0.5		
4	DC	0.5		

If more than 15 rows are needed, athletes can add extra rows into the word document – there is no maximum number of rows or technical bonus elements.

Please ensure the form is sent in before the deadline to avoid deductions for late forms.

Please remember to not exceed the number of allowed bonuses, or to exceed the limit of the maximum singular bonuses that can be indicated.

Please remember that each bonus movement can only be awarded twice in a routine – the third performance of the movement will not be awarded as a technical bonus.
